Minotaur Books

In this "rich, satisfying, and gorgeously written sequel" (Chapters) to her acclaimed debut novel, *The Taker*, Alma Katsu pairs a mysteriously alluring young woman with an ER doctor from rural Maine on a harrowing, passion-fueled chase that transcends the boundaries of time. Lanore McIlvrae is the kind of woman who will do anything for love. Including imprisoning the

man who loves her behind a wall of brick and stone. She had no choice but to entomb Adair, her nemesis, to save Jonathan, the boy she grew up with in a remote Maine town in the early 1800s and the man she thought she would be with forever. But Adair had other plans for her. He used his mysterious, otherworldly powers to give her eternal life, but Lanore learned too late that there was a price for this gift: to spend eternity with him. And though he is handsome and

charming, behind Adair's seductive façade is the stuff of nightmares. He is a monster in the flesh, and he wants Lanore to love him for all of time. Now, two hundred years after imprisoning Adair, Lanore is trying to atone for her sins. She has given away the treasures she's collected over her many lifetimes in order to purge her past and clear the way for a future with her new lover, Luke Findley. But, while viewing these items at an exhibit at the Victoria and Albert Museum in London,

Lanore suddenly is aware that the thing she's been dreading for two hundred years has caught up to her: Adair has escaped from his prison. He's free— and he will come looking for her. And she has no idea how she will save herself. With the stunningly imaginative storytelling and rich characterizations that fascinated readers worldwide and made *The Taker* a singular and memorable literary debut and an international sensation, Alma Katsu once again delivers “a

powerful evocation of the dark side of romantic love” (Publishers Weekly) in her breathtaking new novel.

*The Reckoning* Simon & Schuster Books for Young Readers

"LOVE LOVE LOVE this series!" "I couldn't put it down!" "Where do you run when even the good guys want you dead?" Special Agent Sam Jameson is having a bad week. People are trying to kill her. That would be business as usual in the counterespionage world, except that it's the good

guys who have her in the crosshairs. Why are the DC Metro police trying to kidnap her? Do her bosses at Homeland want her in a body bag, too? And why does everyone she talks to seem to end up in the morgue? Will a ruthless mercenary, a hapless American traitor, and a dead man's cryptic clue hold the key to Sam's survival? As the noose tightens around her neck, Sam must uncover a brutal and deadly conspiracy before she becomes its next victim.

THE INCIDENT: Reckoning

is the second installment in the runaway international sensation INCIDENT trilogy from conspiracy master Lars Emmerich.-----Interview with #1 Bestselling Author Lars EmmerichQ: Who are your influences?A: Too many to list! I started out years ago as a Tom Clancy addict, and I thoroughly enjoy many of Nelson DeMille's novels. I regularly read David Baldacci, Vince Flynn, Barry Eisler, Michael Connelly, and John Grisham. James Patterson

has redefined what it means to be a working author, and I read his stuff as well. My top picks are usually espionage and private detective novels, any of the thousands of thrillers and mysteries best sellers, and, of course, books featuring classic pulp heroes. And I'm greatly influenced by all sorts of nonfiction, as well. I read all the time, and I'm a bit of a magpie about the topics -- science, economics, finance, politics, history, mathematics, engineering,

biomechanics, medicine... It's a big world out there, and I love learning more about it. Many of those topics find their way into my fiction, so I can justify it all as "research." Q: The Sam Jameson series has become quite a phenomenon. What do you think has been the driving force behind the books' success? A: I think Sam has something of a unique voice. She says the things we all wish we could say, and she gets away with it about half of the time. The other half of the time, not so much. I

think she's also a very human heroine. She has plenty of flaws and weaknesses, yet she accomplishes some amazing things. She's kind of like every one of us in that regard, which resonates. Q: You have developed personal relationships with your readers over the years, which is unusual in the publishing business. Was that a conscious choice? A: Absolutely. Books are intimate things. They occupy a person's mind and thoughts for hours at a time. Good books leave

a lasting impression, and great books might even change the way we think about things, but all books are a relationship. I felt that Big Publishing did a great job of distributing novels, but at a very high cost -- there was almost no way for a personal connection to form between writers and readers. But I always wanted a conversation. I wanted to learn from my readers, to hear what was on their minds, to listen to their criticism and hopefully improve the books I write. It's been

extremely rewarding, and I'm hopeful it can continue for years to come.

When the Reckoning Comes The Reckoning The instant New York Times and USA Today bestseller America is suffering from PTSD—The Reckoning diagnoses its core causes and helps us begin the healing process. For four years, Donald J.

Trump inflicted an onslaught of overlapping and interconnected traumas upon the American people, targeting anyone he perceived as being an “other” or an enemy. Women were discounted and derided, the sick were dismissed as weak and unworthy of help, immigrants and minorities were demonized and discriminated against, and money was elevated above all else. In short, he transformed our country into a macro version of his malignantly dysfunctional

family. How can we make sense of the degree to which our institutions and leaders have let us down? How can we negotiate a world in which all sense of safety and justice seems to have been destroyed? How can we—as individuals and as a nation—confront, process, and overcome this loss of trust and the ways we have been forever altered by chaos, division, and cruelty? And when the dust finally settles, how can we begin to heal, in the midst of ongoing health and economic

crises and the greatest political divide since the Civil War? Mary L. Trump is uniquely positioned to answer these difficult questions. She holds a Ph.D. in clinical psychology specializing in trauma, has herself been diagnosed with post-traumatic stress disorder, and happens to be Donald J. Trump's only niece. In *The Reckoning*, she applies her unique expertise to the task of helping us confront an all-encompassing trauma, one that has taken an immense toll on our

nation's health and well-being. A new leader alone cannot fix us. Donald J. Trump is only the latest symptom of a disease that has existed within the body politic since America's inception—from the original sin of slavery through our unceasing, organized commitment to inequality. Our failure to acknowledge this, let alone root it out, has allowed it to metastasize. Now, we are confronted with the limits of our own agency on a daily basis. Whether it manifests itself in rising levels of rage and

hatred, or hopelessness and apathy, the unspeakable stress of living in a country we no longer recognize has affected all of us for a long time, in ways we may not fully understand. An enormous amount of healing must be done to rebuild our lives, our faith in leadership, and our hope for this nation. It starts with *The Reckoning*.

With her intoxicating mix of strength and vulnerability, confidence and sex appeal, his heart never stood a chance. Together, their love was a storm of chaos and calm. When their fame became

a force to be reckoned with, could their love hold them together or would their notoriety tear them apart? "This isn't how our melody goes. This isn't how we were supposed to play out."  
Yearling  
The first history--incisive, witty, fascinating--of the fight against sexual harassment, from the author of the New York Times bestseller *Sisters in Law* Linda Hirshman, acclaimed historian of social movements, delivers the sweeping story of the struggle

leading up to #MeToo and beyond: from the first tales of workplace harassment percolating to the surface in the 1970s, to the Clinton/Lewinsky scandal--when liberal women largely forgave Clinton, giving men a free pass for two decades. Many liberals even resisted the movement to end rape on campus. And yet, legal, political, and cultural efforts, often spearheaded by women of color, were quietly paving the way for the takedown of abusers and harassers. Reckoning delivers the

stirring tale of a movement catching fire as pioneering women in the media exposed the Harvey Weinsteins of the world, women flooded the political landscape, and the walls of male privilege finally began to crack. This is revelatory, essential social history.

Then one cool October morning he rose early, drove into town, walked into the church, and calmly shot and killed his pastor and friend, the Reverend Dexter Bell. As if the murder weren't shocking enough, it was even more baffling that Pete's only statement about it-to the sheriff, to his lawyers, to the judge, to the jury, and to his family-was: "I have nothing to say." He was

not afraid of death and was willing to take his motive to the grave.

Indian Hill 2: Reckoning  
 Penguin  
 Winner of the Stowe Prize  
 Winner of the NBCC Prize for Nonfiction This compelling #1 New York Times bestseller examines the legacy of slavery in America—and how both history and activism continue to shape our everyday lives. Beginning in his hometown of New Orleans, Clint Smith leads the reader on an unforgettable tour of monuments and landmarks—those that are honest about the past and those that are not—that

offer an intergenerational story of how slavery has been central in shaping our nation's collective history, and ourselves. It is the story of the Monticello Plantation in Virginia, the estate where Thomas Jefferson wrote letters espousing the urgent need for liberty while enslaving more than four hundred people. It is the story of the Whitney Plantation, one of the only former plantations devoted to preserving the experience of the enslaved people whose lives and work sustained

it. It is the story of Angola, a former plantation-turned-maximum-security prison in Louisiana that is filled with Black men who work across the 18,000-acre land for virtually no pay. And it is the story of Blandford Cemetery, the final resting place of tens of thousands of Confederate soldiers. A deeply researched and transporting exploration of the legacy of slavery and its imprint on centuries of American history, *How the Word Is Passed* illustrates how some of our country's

most essential stories are hidden in plain view—whether in places we might drive by on our way to work, holidays such as Juneteenth, or entire neighborhoods like downtown Manhattan, where the brutal history of the trade in enslaved men, women, and children has been deeply imprinted. Informed by scholarship and brought to life by the story of people living today, Smith's debut work of nonfiction is a landmark of reflection and insight that offers a new

understanding of the hopeful role that memory and history can play in making sense of our country and how it has come to be.

When an intricate old map is found stuffed into the walls of the bistro in Three Pines, it at first seems no more than a curiosity. But the closer the villagers look, the stranger it becomes. Given to Armand Gamache as a gift the first day of his new job, the map eventually leads him to shattering secrets. To an old friend and older

And there he finds four young cadets in the Sûreté academy, and a dead professor. And, with the body, a copy of the old, odd map. Everywhere Gamache turns, he sees Amelia Choquet, one of the cadets. Tattooed and pierced. Guarded and angry. Amelia is more likely to be found on the other side of a police line-up. And yet she is in the academy. A protégée of

the murdered professor. The focus of the investigation soon turns to Gamache himself and his mysterious relationship with Amelia, and his possible involvement in the crime. The frantic search for answers takes the investigators back to Three Pines and a stained glass window with its own horrific secrets. Random House Digital, Inc. A guide to long-term thinking: how to envision the far future of Earth. We live on a planet careening toward environmental collapse that will be largely brought about by our own actions. And yet we struggle to grasp the scale of the crisis, barely able to imagine the effects of climate change just ten years from now, let alone the multi-millennial timescales of Earth's past and future life span. In this book, Vincent Ialenti offers a guide for

envisioning the planet's far future—to become, as he terms it, more skilled deep time reckoners. The challenge, he says, is to learn to inhabit a longer now. Ialenti takes on two overlapping crises: the Anthropocene, our current moment of human-caused environmental transformation; and the deflation of expertise—today's popular mockery and institutional erosion of expert authority. The second crisis, he argues, is worsening the effects of the first. Hearing out

scientific experts who study a wider time span than a Facebook timeline is key to tackling our planet's emergency. Astrophysicists, geologists, historians, evolutionary biologists, climatologists, archaeologists, and others can teach us the art of long-termism. For a case study in long-term thinking, Ialenti turns to Finland's nuclear waste repository “Safety Case” experts. These scientists forecast far future glaciations, climate changes, earthquakes,

and more, over the coming tens of thousands—or even hundreds of thousands or millions—of years. They are not pop culture

“futurists” but data-driven, disciplined technical experts, using the power of patterns to construct detailed

scenarios and quantitative models of the far future. This is the kind of time literacy we need if we are to survive the Anthropocene.
