presents an intimate portrait of Barack and Michelle Obama and the guiding principles that defined their time in the White House. While documenting the journey from the Obama's family home in Chicago to the most powerful house in the United States, Shell and the Obamas became fast friends, swapping stories about their families and sharing tips about coping with life on the road. Over 100 compelling photographs from behind the scenes, including many previously

unpublished, are paired with insightful quotes from Michelle and Barack that reveal their warmth, compassion, and unending commitment to service. Featuring an in-depth introduction by Shell and notes drawn from the diaries she kept during her time with the Obamas, this is an affecting, deeply personal insight into an extraordinary couple who energized and empowered millions of people around the world. 'Delightfully insightful and intensely readable [...]' There is an energy and drama to Rory's writing which nonetheless leaves space for us, the reader, to make up our minds' - Stephen Fry We live at a time when billions have access to unbelievably powerful technology. The most extraordinary tool that has been invented in the last century, the smartphone, is forcing radical changes in the way we live and work - and unlike previous technologies it is in the hands of just about

everyone. Coupled with the rise of social media, this has ushered in a new era of deeply personal technology, where individuals now have the ability to work, create and communicate on their own terms, rather than wait for permission from giant corporations or governments. At least that is the optimistic view. This book takes readers on a hectic ride through this turbulent era, as related by an author with a ringside seat to the key moments of the technology revolution. We

remember the excitement and wonder that came with the arrival of Apple's iPhone with all the promise it offered. We see tech empires rise and fall as these devices send shockwaves through every industry and leave the corporate titans of the analogue era floundering in their wake. We see that early utopianism about the potential of the mobile social revolution to transform society for the better fade, as criminals, bullies and predators poison the well of social media. And we hear from

those at the forefront of the tech revolution, including Stephen Hawking, Elon Musk, Tim Berners-Lee, Martha Lane-Fox and Jimmy Wales, to gain their unique insights and predictions for what may be to come. Always On immerses the reader in the most important story of our times – the dramatic impact of hyperconnectivity, the smartphone and social media on everything from our democracy to our employment and our health. The final section of the book draws on the

author's own personal experience with technology and medicine, considering how COVID-19 made us look again to computing in our battle to confront the greatest challenge of modern times.

"Eight years in the White House went by so fast. That's why I'm so grateful that Lawrence was there to capture them. I hope you enjoy his work as much as I do." --From the foreword by Barack

Obama When Lawrence Jackson took the job as White House photographer in early 2009, he knew he'd have a front row seat to history. What he didn't expect was the deep personal connection he would feel, as a fellow African American, with the President of the United States. *Yes We Did* is filled with Lawrence's intimate photographs and reflections, as well as first-person recollections from President Obama, everyday citizens, and notable personalities

including Bono, Stephen Curry, Valerie Jarrett, Admiral Mike Mullen, and others. The book is a celebration of the most inclusive and representative White House in history - where in between momentous and pivotal decisions, the President and First Lady opened the doors of the People's House to schoolkids, athletes, senior citizens, hip-hop artists, and more. For anyone who misses the humanity, grace, and undefinable "cool factor" of the Obama White

House, this warm and inspiring book provides an affirming, proud, and focused lens on our history.

Based on a Navy SEAL's inspiring graduation speech, this #1 New York Times bestseller of powerful life lessons "should be read by every leader in America" (Wall Street Journal). If you want to change the world, start off by making your bed. On May 17, 2014, Admiral William H. McRaven addressed the

graduating class of the University of Texas at Austin on their Commencement day. Taking inspiration from the university's slogan, "What starts here changes the world," he shared the ten principles he learned during Navy Seal training that helped him overcome challenges not only in his training and long Naval career, but also throughout his life; and he explained how anyone can use these basic lessons to change themselves-and the world-for the better.

Admiral McRaven's original speech went viral with over 10 million views. Building on the core tenets laid out in his speech, McRaven now recounts tales from his own life and from those of people he encountered during his military service who dealt with hardship and made tough decisions with determination, compassion, honor, and courage. Told with great humility and optimism, this timeless book provides simple wisdom, practical advice, and words of encouragement

that will inspire readers to achieve more, even in life's darkest moments. "Powerful." --USA Today "Full of captivating personal anecdotes from inside the national security vault." -- Washington Post "Superb, smart, and succinct." -- Forbes

Hope, Not Fear Thomas Nelson

Written after his wife's tragic death as a way of surviving the "mad midnight moment," *A Grief Observed* is C.S. Lewis's honest reflection

on the fundamental issues of life, death, and faith in the midst of loss. This work contains his concise, genuine reflections on that period: "Nothing will shake a man -- or at any rate a man like me -- out of his merely verbal thinking and his merely notional beliefs. He has to be knocked silly before he comes to his senses. Only torture will bring out the truth. Only under torture does he discover it himself." This is a beautiful and unflinchingly honest record of how even a stalwart believer

can lose all sense of meaning in the universe, and how he can gradually regain his bearings.

The Afghan people are standing at a crucial crossroads in history. Can their fragile democratic institutions survive the drawdown of US military support? Will Afghan women and girls be stripped of their modest gains in freedom and

opportunity as the West loses interest in their plight? While the media have largely moved on from these stories, Paula Bronstein remains passionately committed to bearing witness to the lives of the Afghan people. In this powerful photo essay, she goes beyond war coverage to reveal the full complexity of daily life in what may be the world's most reported on yet least known country. *Afghanistan: Between Hope and Fear* presents a photographic portrait of

this war-torn country's people across more than a decade. With empathy born of the challenges of being an American female photojournalist working in a conservative Islamic country, Bronstein gives voice to those Afghans, particularly women and children, rendered silent during the violent Taliban regime. She documents everything from the grave trials facing the country—human rights abuses against women, poverty and the aftermath of war, and heroin addiction, among

them—to the stirrings of new hope, including elections, girls' education, and work and recreation. Fellow award-winning journalist Christina Lamb describes the gains that Afghan women have made since the overthrow of the Taliban, as well as the daunting obstacles they still face. An eloquent portrait of everyday life, *Afghanistan: Between Hope and Fear* is the most complete visual narrative history of the country currently in print.
