It is true that mankind itself has probably always been characterized with the main desire to determine just what spiritual truth really is. For centuries and centuries, highly educated philosophers and religious men alike have always stood toe-to-toe, disagreeing on spiritual truth. Since they cannot all be right, this would strongly indicate that education, religious persuasion, or even intelligence has little to do with our discovery of the real spiritual truth. For if these things were truly critical, then obviously, the spiritual/intellectual giants of history would have agreed on spiritual truth long ago. In this work, author Ted Even endeavors to show that the disagreeing intellectuals/skeptics of the past only serves to reinforce Christ's radical statement about our need to just become like little children in order to discover the spiritual truth and that literally everyone has the same opportunity to enter the kingdom of heaven on that basis. However, while super-intelligence or big degrees may not be necessary, the discovery of spiritual truth does require just one very reasonable quality of heart which little children have always possessed. Find out just what this basic quality of heart is as you continue your search for spiritual truth within this simple to understand work which only leaves the real spiritual truth left standing.

The World's Religions after September 11 [4 volumes] ABC-CLIO

Jesus or Muhammad: A Question of Assurance Two people have radically influenced the world:

Jesus and Muhammad. One name invokes some people to love their enemies. The other name invokes some people to hate those who insult that name. However, movements in the West with varying agendas, infatuated with words like "co-exist," "tolerance," and "inclusivism," shove all the key differences between faiths under a rug without any discussion over them. Yet History and Experience tell us that it is good to freely talk about differences in order to understand each other's faith. Steven Masood examines how followers of Jesus and followers of Muhammad use different dictionaries for the definition of peace, love, grace, and mercy. He delves into the Bible and the Qur'an, investigating how both present the creation and the patriarchs. While the Bible stops with Jesus and his disciples, the Qur'an brings Muhammad on the scene. Masood deals sensitively with questions like: Is the Qur'an the continuation of the Bible? Did Jesus promise the coming of Muhammad? Is Jesus or Muhammad the "final messenger" with the authority of assurance from God? What guidance was promised to Adam, to restore him and his progeny to God? If Jews, Christians, and Muslims believe in the same God, why the different messages? Steven Masood, PhD, has spent over 30 years studying and working in Christian-Muslim relations. At present, he holds workshops and seminars with a Biblical and Qur'anic perspective on Islam. He has written several books, including The Bible and the Qur'an: A Question of Integrity. Currently he serves in full-time Christian ministry. More info: www.JesusToMuslims.org

Roadmap to the Virginia Sol: Eoc World History Fortress Press

This set is an unprecedented examination of religion's influence on modern life, an honest assessment of how religion can either destroy us or preserve us, and a thorough exploration of what steps might be necessary for all religions to join together as a force for good. Convening on the fifth anniversary of the terrorist attack on the World Trade Center, the global congress The World's Religions after September 11 explored the negative and positive possibilities of the religious dimensions of life. The presentations from the congress have been pulled together in this set, which addresses religion's intersection with human rights, spirituality, science, healing, the media, international diplomacy, globalization, war and peace, and more. This comprehensive set includes contributions from such well-known scholars of religion as Arvind Sharma and a host of others from all the world's religious traditions. This set is an unprecedented examination of religion's influence on modern life, an honest assessment of how religion can either destroy us or preserve us, and a thorough exploration of what steps might be necessary for all religions to join together as a force for good. Because of the attack on the World Trade Center on September 11, 2001, the very concept of religion underwent a paradigm shift. Instead of standing for virtue and piety, peace and harmony, the word religion also came to be inextricably associated with evil, aggression, and terror. People around the world began to question whether the religious and secular dimensions of modern life can be reconciled, whether the different religions of the world can ever coexist in harmony. Indeed, the very future of religion itself has sometimes seemed to be uncertain, or at least suspect.

World Religions and Cults Volume 2 ABC-CLIO

According to John Hick's model of religious pluralism, all the world's great religions present equally valid ways of understanding and responding to the same ultimate Reality. This book offers an exposition of, and critical response to, Hick's model. Following an introductory chapter that surveys dominant approaches to religious diversity, the rise and development of Hick's pluralist interpretation of religions is traced. Finally, a critical assessment of Hick's mature pluralist model is offered. The conclusion: Hick's model is ultimately unsuccessful in overcoming the pluralist's most difficult conceptual problem, namely providing an adequate account of the fact that the world's religions understand the divine Reality in often contradictory ways. Ultimately, Hick's own solution threatens two of his long-cherished goals: a robust religious realism and a tradition-neutral religious pluralism.

World Religions and Cults Volume 1 W.W. Norton & Company

Religions in today's culture seem to be multiplying. Have you ever wondered why certain religions

believe and practice what they do? Or how they view the Bible? This volume delves into these and other engaging questions, such as: How can a Christian witness to people in these religions? Do these other religions believe in creation and a Creator? How do we deal with these religions from a biblical authority perspective? Many religions and cults discussed in this first volume openly affirm that the Bible is true, but then something gets in their way. And there is a common factor every time—man’s fallible opinions. In one way or another the Bible gets demoted, reinterpreted, or completely ignored. Man’s ideas are used to throw the Bible’s clear teaching out the window while false teachings are promoted. This book is a must for laymen, church leaders, teachers, and students to understand the trends in our culture and around the world where certain religions dominate, helping you discern truth and guard your faith. When you understand a religion’s origins and teachings, you are in a better position to know how to proclaim the gospel of Jesus Christ as you take the good news to those in false religions.

Tolerance and co-existence are both great! In fact, they are necessary. If we are to live together in peace without hating each other, or physically harming each other over differences in race, culture, sexual orientation, political views, and religious beliefs, we must have tolerance. However, we must also recognize that every belief can't be equally valid. If two beliefs directly contradict each other, both of them cannot be true, no matter how "tolerant" we become. This means it is false to say that every religion is true, or that every religion leads to God. When people make such claims they show that they have not taken the time to study the world's religions, because a brief reading of the sacred texts of only a handful of religions quickly reveals contradictions on the most fundamental levels. Religious Contradictions Reincarnation (Hinduism and Buddhism) contradicts the belief that this is your only life before eternity (Christianity, Judaism, and Islam). Salvation from sin (Christianity) contradicts the belief that there is no sin to be saved from but simply pain that can be escaped through enlightenment (Buddhism). Jesus Christ is the incarnate, Son of God (Christianity), contradicts the teaching that he is just a prophet (Islam) or that he was a false prophet (Judaism). In light of these contradictions alone, all religions can't be true. They could all be false, but they can't all be true. Are any of them true? This is the most important question anyone can ask. Recognize religious contradictions. Embrace them. Test them. Seek the truth. www.contradictmovement.org

The United States is one of the most religious places on earth, but it is also a nation of shocking religious illiteracy. Only 10 percent of American teenagers can name all five major world religions and 15 percent cannot name any. Nearly two-thirds of Americans believe that the Bible holds the answers to all or most of life's basic questions, yet only half of American adults can name even one of the four gospels and most Americans cannot name the first book of the Bible. Despite this lack of basic knowledge, politicians and pundits continue to root public policy arguments in religious rhetoric whose meanings are missed—or misinterpreted—by the vast majority of Americans. "We have a major civic problem on our hands," says religion scholar Stephen Prothero. He makes the provocative case that to remedy this problem, we should return to teaching religion in the public schools. Alongside "reading, writing, and arithmetic," religion ought to become the "Fourth R" of American education. Many believe that America's descent into religious illiteracy was the doing of activist judges and secularists hell-bent on banishing religion from the public square. Prothero reveals that this is a profound misunderstanding. "In one of the great ironies of American religious history," Prothero writes, "it was the nation's most fervent people of faith who steered us down the road to religious illiteracy. Just how that happened is one of the stories this book has to tell." Prothero avoids the trap of religious relativism by addressing both the core tenets of the world's major religions and the real differences among them. Complete with a dictionary of the key beliefs, characters, and stories of Christianity, Islam, and other religions, Religious Literacy reveals what every American needs to know in order to confront the domestic and foreign challenges facing this country today.
