Really Easy Piano - The Frozen Collection Hal Leonard Corporation
In this collection, the "early echoes" are the isolating sirens of patrol cars and ambulances in the darkness, along with poems of morning glories in urban alleyways, of seedy coffee shops and neglected stone fountains in vacant back yards. These poems explore the present by reworking it in terms of the past. Sonnets and villanelles alternate with free verse as present and past subsume and modify the solitary echoes of experience lived and reworded, abbreviated and re-amplified.

Experience in these poems is concentric rather than linear, echoes of circles and spheres, of repetitions and refrains.

The subject matter is time-self-referential hours and decades, time at once alternating and static, cyclic and monolithic, alienating and echoing, time circular and frozen as stone.

The Snowman Suite Hal Leonard

BookRock musicals are an increasingly dominant force in contemporary musical theatre. Rock the Audition defines what is required of the actor-singer to succeed in the audition room and gives the aspiring performer the tools necessary to interpret rock material with abandon, creativity, and inspiration. This book shows those interested in auditioning for a rock musical how to holistically embody the essence of the show for which they are auditioning. Rock the Audition teaches performers how to: * Pick songs that have or have room to create a dramatic arc* Create their own appropriate cuts and arrangements, and successfully communicate the feel of a song to a pianist for proper support* Capture the essence of the musical they're trying out for* Understand the vocal styles of different genres and how the styles changed over time* Act a rock song "Sanders's method also helps singing actors refine their physical life in the audition room when singing a rock song, an

approach profoundly different from that of the legit musical-theatre auditioner. Rock the Audition shows readers how to interpret the meaning of the chosen songs and how to bring their own unique point of view to those interpretations.
