A devastating storm with a straight-wind blast struck Northwest Michigan on August 2, 2015. It left houses with gaping holes, thousands of residents with no power for days, and parts of Sleeping Bear Dunes National Lakeshore unrecognizable. This book depicts the destructive storm and its impact on the affected counties including Leelanau, Grand Traverse and Antrim, with photographs by and stories about the storm's resilient survivors.

 Bob Seger's House and Other Stories is a collection of short stories written by some of Michigan's most well-known fiction writers. This collection of twenty-two short stories serves as a celebration not only of the tenth anniversary of the

Made in Michigan Writers Series in 2016 but also of the rich history of writing and storytelling in the region. As series editors Michael Delp and M. L. Liebler state in their preface, "The stories contained in this anthology are a way to stay connected to each other. Think of them as messages sent from all over the map, stitching readers and writers together through stories that continue to honor the ancient art of the fire tale, the hunting epic, and all of the ways language feeds the blood of imagination." The scope of this project reflects the dynamic and diverse writing that is currently taking place by people who consider their home to be the Great Lakes state. Stories are far-ranging, from the streets of Detroit and the iconic presence of the auto industry to the wild

tracts of the Upper Peninsula, to a couple on the west coast trying to figure out parenting. The book vibrates with that tension, of metal versus rock and human frailty taking on the pitfalls and hardships of living in this world. In his foreword, Charles Baxter asks, "Does a region give rise to a particular kind of literature? Michigan is so fiercely diverse in its landscapes, its economy, and its population demographics that it presents anybody who wants to write about it with a kind of blank slate. You can't summarize the state easily." These storytellers exude a "Michigan aesthetic" in their writing, something that cannot be learned in a textbook or taught in a classroom but can be felt through the tales of these storytellers. The experience of picking up this collection is

akin to taking a drive from the mechanized world and arriving several hours later in one of the wildest places on earth. Readers of short fiction will enjoy the multitude of voices in this anthology.

Take a glimpse into deer hunting's past! White-tailed deer hunting has an incredibly rich heritage in America, and has played a vital role in the survival and expansion of this great nation. It's provided food, clothing, income, camaraderie and an unmistakable

freedom to enjoy the country's magnificent wild lands. Take a glimpse back in time with the outstanding collection of photographs and historical information from the late 1800s to the mid-1900s that author Duncan Dobie has included inside Dawn of American Deer Hunting. You'll see the classic rifles hunters used, how they traveled to the remote deer camps, what kind of shelters they stayed in and more fascinating pieces of hunting history from the legendary deer regions around America. And admire the deer they took home--massive-bodied Northern bucks, trophy Texas antlers, buck poles filled with does and much-appreciated venison. As the old saying goes, "a picture is worth a thousand words." Just imagine the stories of the rugged folk in

each photograph, and soon you'll connect with these deer hunters of yesteryear. We still face the same keen senses of the whitetail; the same harsh weather; the same buck fever....

Louis Friedrich had no idea back in 1939 what he was creating when he purchased property in Michigan and built a hunting camp he called Singing Hills. It was just a rustic cabin in the woods, but over time it grew roots into the heart of an entire family. Learn about the colorful characters that have graced the camp over the years in this hunting camp memoir. Hear the rich and funny tales from days past about poachers and pranks, bears and bucks, and even voices from the great beyond. The author's life was upended at age 3 when

It also served as a bridge to maintain his relationship with his father, and later in adulthood, his own son. Join the author on a journey that will make you laugh and cry. "That Hunting Camp" will show you how a cabin in the woods can mean so much more to a family than one could ever imagine.

"A demonstration of outstanding skills on the river of American literature."

—Entertainment Weekly "Bonnie Jo Campbell has built her new novel like a modern-day craftsman from the old timbers of our national myths about loners living off the land, rugged tales as

perilous as they are alluring. Without sacrificing any of its originality, this story comes bearing the saw marks of classic American literature, the rough-hewn sister of *The Leatherstocking Tales*, *The Adventures of Huckleberry Finn*, and *Walden*.”—Ron Charles, *Washington Post*

 The young maiden Leelinau is forbidden from going into the Spirit Wood. But Leelinau so enjoys her time spent there with the Pukwudjinees (the tiny fairies of

the forest) that she risks playing with them time and time again. The legend explores the resistance many of us harbor of entering adulthood. This is the fifth title written by Kathy-jo Wargin and illustrated by Gijbert van Frankenhuyzen in our Legend series which currently has 400,000 copies in print. The Legend of the Sleeping Bear, the title that began the series, is the official State of Michigan children's book. "Leelinau was so happy to be in the Spirit Wood once again that she began to dance all around. Then she sat down amidst a mess of large tree roots that fit like a chair made just for her. But this time, as she sat there to rest, she heard strange whispers. At first, Leelinau thought it sounded like baby robins trying to catch their first breaths, or

ferns being tossed back and forth in the wind. But Leelinau wasn't quite sure, so she listened more carefully. She heard more whispers, and then voices. Leelinau became frightened. Her heart pounded like a large drum in her chest, and her throat felt tight and narrow."

"A fall of woodcock into a covert you have either chosen or to which you have been directed is a magic all its own," Tom Huggler writes in this book devoted to the woodcock and to those who await the return to their favorite coverts each autumn. This book, with a new

introduction by Charley Waterman, casts a similar spell as it chronicles Tom's travels to New England, the Maritimes, Maine, Louisiana, then back to his beloved Michigan in search of a better understanding of the woodcock, and finally, a better understanding of himself. Like the annual migratory flights of the woodcock, *A Fall of Woodcock* follows no particular line, but rather meanders along the main currents and causeways of Huggler's life, dropping down here and there in places that both sustain it and give it meaning. It covers his early hunting years, old friends and new ones, four-legged partners, woodcock researchers, and a visit with H. G. "Tap" Tapply. Huggler also traces his evolution from a run-and-gun birder to a slower but surer hunter who sets his

own pace and his own bag limits. Those familiar with the magic and mystery of the American woodcock are sure to find a kindred spirit here.
