On the Nose Yale University Press

On the evening of July 27, 1985, five hikers made a fateful choice to climb Yosemite's fabled Half Dome even as the sky darkened and thunder rolled. By night's end, two would be dead from a lightning strike, three gravely wounded, and desperate EMTs would be overseeing a harrowing midnight helicopter rescue.

John Muir Trail: South to North Edition Rowman & Littlefield
Including two new chapters on Alex Honnold's free solo ascent of the iconic 3,000-foot El Capitan in Yosemite National Park. On June 3rd, 2017, Alex Honnold became the first person to free solo Yosemite's El Capitan—to scale the wall without rope, a partner, or any protective gear—completing what was described as "the greatest feat of pure rock climbing in the history of the sport" (National Geographic) and "one of the great athletic feats of any kind, ever" (New York Times). Already one of the most famous adventure athletes in the world, Honnold has now been hailed as "the greatest climber of all time" (Vertical magazine). *Alone on the Wall* recounts the most astonishing achievements of Honnold's extraordinary life and career, brimming with lessons on living fearlessly, taking risks, and maintaining focus even in the face of extreme danger. Now Honnold tells, for the first time and in his own words, the story of his 3 hours and 56 minutes on the sheer face of El Cap, which *Outside* called "the moon landing of free soloing...a generation-defining climb. Bad ass and beyond words...one of the pinnacle sporting moments of all time." Fifty Classic Climbs of North America Mountaineers Books

* Includes stories of such greats as Royal Robbins, Yvon Chouinard, Allen Steck, and Warren Harding * Captures the raucous, outrageous, innovative spirit of climbing in Yosemite during this period * Portrays the advances in equipment and style that revolutionized big-wall climbing In the 1960's, California's Yosemite Valley was the center of the rock-climbing universe. Young nonconformists -- many of them the finest rock climbers in the world -- channeled their energy toward the largely untouched walls and cracks. Soon climbers from around the globe were coming to Camp 4 -- gathering spot for the creators of the Golden Age of Yosemite climbing -- to see what all the fuss was about. Climber and author Steve Roper spent most of 10 years living in the Yosemite Valley with its intriguing inhabitants. Camp 4 is his take on the era's top climbers and the influences behind their achievements. The text is full of stories both hilarious and revealing about the likes of bolt-disdaining Royal Robbins; fun-loving, big-wall expert Warren Harding; free-climber Frank Sacherer; multi-talented Chuck Pratt; master craftsman Yvon Chouinard; and ill-fated Mark Powell. Roper also tips his hat to the elder statesmen of the 1930s and 1940s who pioneered early, important climbs in the valley. Camp 4 looks at the most significant climbs, and the most riveting controversies of a legendary era. With more than 50 fascinating historical photographs, most never before published, Camp 4 is the definitive history of Yosemite climbing during this period.

"One of the most compelling accounts of a climb and the climbing ethos that I've ever read." --Sebastian Junger *The Impossible Climb* climaxes with Alex Honnold's unprecedented, almost

unimaginable feat: a 3,000-foot vertical climb up El Capitan in Yosemite, without a rope. Mark Synnott tells the story in the context of a deeply reported account of his ten-year friendship with Honnold, multiple climbing expeditions, and the climbing ethos they share. The climbing community had long considered a "free solo" ascent of El Capitan an impossible feat so far beyond human limits that it was not worth thinking about. When Alex Honnold topped out at 9:28 am on June 3, 2017, having spent fewer than four hours on his historic ascent, the world gave a collective gasp. His friend Tommy Caldwell, who free climbed (with a rope) the nearby Dawn Wall in 2015, called Alex's ascent "the moon landing of free soloing." The New York Times described it as "one of the great athletic feats of any kind, ever." It was "almost unbearable to watch," writes Synnott. This majestic work of personal history delves into a raggedy culture that emerged decades earlier during Yosemite's Golden Age, when pioneering climbers like Royal Robbins and Warren Harding invented the sport that Honnold would turn on its ear. Synnott paints an authentic, wry portrait of climbing history, profiling Yosemite heroes John Bachar, Peter Croft, Dean Potter, and the harlequin tribe of climbers known as the Stonemasters. A veteran of the North Face climbing team and contributor to National Geographic, Synnott weaves in his own amateur and professional experiences with poignant insight and wit. Tensions burst on the mile-high northwest face of Pakistan's Great Trango Tower; photographer/climber Jimmy Chin miraculously persuades an intransigent official in the Borneo jungle to allow Honnold's first foreign expedition, led by Synnott, to continue; armed bandits accost the same trio at the foot of a tower in the Chad desert . . .

The Impossible Climb is an emotional drama driven by people exploring the limits of human potential and seeking a perfect, dialed-in dance with nature. They dare beyond the ordinary, but this story of the sublime is really about all of us. Who doesn't need to face down fear and make the most of the time we have?

Hans Florine embodies the genius of "and"—collaborative and competitive, fast and safe, audacious and disciplined, visionary and quantitative. The themes that run through Florine's 101 ascents of Yosemite's most iconic route can benefit people who will never climb a rock, indeed anyone inspired by the idea of a passionate, lifelong quest of any type. —Jim Collins, author of *Good to Great* Hans Florine is a big-wall climbing legend in his own time. He holds the speed record on the Nose route of El Capitan, a 3,000-foot granite cliff in Yosemite Valley that's considered the Everest of the rock-climbing world. Ascending the Nose takes most climbers anywhere from 12 to 96 hours. Florine, along with climbing partner Alex Honnold, does it in an astounding 2.5 hours. But Florine's story is not one of super-human athletic prowess; it's one of persistence and dogged determination. In 30 years of climbing, he's ascended the Nose a mind-blowing, death-defying 100 times, more than anyone else ever has, and most likely ever will. In *On the Nose*, Florine describes the most dangerous, pivotal, and inspirational of those climbs, providing a rare look inside the adrenaline-charged world of competitive climbing in Yosemite Valley. He tells of his very first attempt on the Nose, which ended in failure after 14 hours, his friendships (and rivalries) with climbing's most colorful personalities, and his battle with Dean Potter to secure the

definitive speed record on the Nose—an endeavor that's been called the wildest competition known to man. Perhaps most interestingly, Florine attempts to answer the question why. Why would anyone undertake one of the greatest adventure epics on earth 100 times? His answers provide unique insights on how to live a satisfying life, how to achieve big goals, and how an otherwise ordinary guy can become a rock star.

John Muir (1838–1914) ranks among America's most important and influential naturalists, and he is closely associated with Yosemite National Park. He wrote magazine articles that encouraged its foundation, assisted in drawing its boundaries, and co-founded the Sierra Club to ensure its protection. Muir explored virtually every inch of Yosemite, which he called "nature's landscape garden, at once beautiful and sublime," and made detailed studies of its geology, plants, and animals. This volume of classic nature writing reflects the extent of the beloved conservationist's intimate connection with the region and his appreciation of its majestic landscapes. Muir's lyrical celebrations of natural wonders range far afield, from rivers, lakes, and waterfalls to serene forests and meadows, rugged canyons, and snowy mountain peaks. An essential companion for park visitors, *The Yosemite* exudes an almost mystical love for natural beauty and the spiritual power of wilderness areas.
