In his critically acclaimed epic first novel, Jay Cantor, author of *Krazy Kat* and *Great Neck*, draws on history, myth, and his own prodigious imagination to take on the life and death of revolutionary icon Che Guevara. In his now famous progress through modern times, Ernesto "Che" Guevara, the scion of a liberal Argentine

family, abandoned a medical career to become a revolutionary. A fiery comrade of Fidel Castro's who joined him in overthrowing the Cuban government of Batista, Che later broke with Castro to lead a guerrilla movement in Bolivia. As the novel charts Che's bold evolution, it also offers an incisive look at Latin America's revolutionary struggles, an exploration of the nature of truth and storytelling, and a brilliant exegesis of the psychology of radical activism. The earthshaking news of October 1998 that General Pinochet had been arrested in Britain unleashed two years of international interest in the case and its ramifications for traveling tyrants the world over. But even after the General's return home, the media has ignored the more important story of how his detention lifted a stranglehold that had suffocated Chile's moral sensibility for a generation. Award-winning journalist Marc Cooper was a translator to President Allende until the coup of 1973. In this reflection on Chile and the role it has played in his life, he

reconstructs the tense atmosphere of the final days of the Allende government, including his hiding and subsequent evacuation under armed UN protection. Twenty-five years later he returns and recounts, in vivid street-level reporting, a country that is a democracy in name only and a society that has been transfigured by one of the most radical, armed capitalist revolutions of our time. Yet, he argues, spasms of protest that seemed like the last rattle of the snake may still presage the crumbling of Chile's status quo as its people emerge from the long night of reaction to the cry of "Adios General!"

A decade ago, Manu Chao's band, Mano Negra, toured Colombia by train, negotiating with government troops and rebels - an episode described at the time as 'less like a rock'n'roll tour - more like Napoleon's retreat from Moscow'. That's Manu in a nutshell. He does everything differently. He is a multi-million selling artist who prefers sleeping on friends' floors to five-star hotels, an anti-globalisation activist who hangs out with

prostitute-activists in Madrid and Zapatista leader Comandante Marcos in Chiapas, a recluse who is at home singing in front of 100,000 people in stadiums in Latin America or festivals in Europe. *Clandestino* has been five years in the writing, as Peter Culshaw followed Manu around the world, invited at a moment's notice to head to the Sahara, or Brazil, or to Buenos Aires, where Manu was making a record with mental asylum inmates. The result is one of the most fascinating music biographies we're ever likely to read.

"Perlstein...aims here at nothing less than weaving a tapestry of social upheaval. His success is dazzling." —Los Angeles Times
 "Both brilliant and fun, a consuming journey back into the making of modern politics." —Jon Meacham
 "Nixonland is a grand historical epic. Rick Perlstein has turned a story we think we know—American politics between the opposing presidential landslides of 1964 and 1972—into an often-surprising and always-fascinating new narrative."

—Jeffrey Toobin
 Rick Perlstein's bestselling account of how the Nixon era laid the groundwork for the political divide that

marks our country today. Told with vivid urgency and sharp political insight, *Nixonland* recaptures America's turbulent 1960s and early 1970s and reveals how Richard Nixon rose from the political grave to seize and hold the presidency of the United States. Perlstein's epic account begins in the blood and fire of the 1965 Watts riots, nine months after Lyndon Johnson's historic landslide victory over Barry Goldwater appeared to herald a permanent liberal consensus in the United States. Yet the next year, scores of liberals were tossed out of Congress, America was more divided than ever, and a disgraced politician was on his way to a shocking comeback: Richard Nixon. Between 1965 and 1972 America experienced no less than a second civil war. Out of its ashes, the political world we know now was born. Filled with prodigious research and driven by a powerful narrative, Rick Perlstein's magisterial account of how it all happened confirms his place as one of our country's most celebrated historians.

Huerta-Charles have assembled a notable group of contributors who reflect on, analyze, and critique over two decades' worth of scholarship produced by Peter McLaren, one of the most influential and widely read leftist scholars working in academia today. Specifically, this book focuses on the nexus of education, critical theory, Marxism, globalization, and struggles for social justice via the work and theorizing of McLaren.

The fall of the Berlin Wall marked the end of the Cold War but also the rise of a melancholic vision of history as a series of losses. For the political left, the cause lost was communism, and this trauma determined how leftists wrote the next chapter in their political struggle and how they have thought about their past since.

Throughout the twentieth century, argues Left-Wing Melancholia, from classical Marxism to psychoanalysis to the advent of critical theory, a culture of defeat and its emotional overlay of melancholy have characterized the leftist understanding of the political in history and in theoretical critique. Drawing on a vast and diverse archive in theory, testimony, and image and on such thinkers as Karl Marx, Walter Benjamin, Theodor W. Adorno, and others, the intellectual historian Enzo Traverso explores the varying nature of left melancholy as it has manifested in a feeling of guilt for not sufficiently challenging authority, in a fear of surrendering in disarray and resignation, in mourning the human costs of the past, and in a sense of failure for not realizing utopian aspirations. Yet hidden within this melancholic tradition are the resources for a renewed challenge to prevailing regimes of historicity, a passion that has the power to reignite the dialectic of revolutionary thought.

How New York intellectuals interpreted and wrote about Castro's revolution in the 1960s New York in the 1960s was a hotbed for progressive causes of every stripe, including women's liberation, civil rights, opposition to the Vietnam War—and the Cuban Revolution. Fighting over Fidel brings this turbulent cultural moment to life by telling the story of the New York intellectuals who championed and opposed Castro's revolution. Setting his narrative against the backdrop of the ideological confrontation of the Cold War and the breakdown of relations between Washington and Havana, Rafael Rojas examines the lives and writings of such figures as Waldo Frank, Carleton Beals, C. Wright Mills, Allen Ginsberg, Susan Sontag, Norman Mailer, Eldridge Cleaver, Stokely Carmichael, and Jose Yglesias. He

describes how Castro's Cuba was hotly debated in publications such as the New York Times, Village Voice, Monthly Review, and Dissent, and how Cuban socialism became a rallying cry for groups such as the Beats, the Black Panthers, and the Hispanic Left. Fighting over Fidel shows how intellectuals in New York interpreted and wrote about the Cuban experience, and how the Left's enthusiastic embrace of Castro's revolution ended in bitter disappointment by the close of the explosive decade of the 1960s.

In the run-up to the fourth World Social Forum held in Mumbai, India in January 2004, civil activists and students organised a major series of seminars in Delhi University to discuss the Forum and its politics. The Open Space seminar series, as it came to be called, picked up on the idea of the Forum as a relatively free space, where all kinds of ideas could meet and be discussed. These books explore the new ideas generated by the discussions. Can the World Social Forum, the authors ask, help us to conceptualise and actualise a new politics? Can this new politics be free from violence? Can the

experience and knowledge of great movements such as the movement for the environment, and the women's movement, contribute to the creation of a new politics? How can such a politics be sustained? These volumes offer the reader different and complex ways of understanding the processes that have helped to shape the World Social Forum and the new politics that seems to be emerging.

On July 22, 2011, Anders Behring Breivik detonated a car bomb in downtown Oslo, Norway. He didn't stop there, traveling several hours from the city to ambush a youth camp while the rest of Norway was distracted by his earlier attack. That's where the facts end. But what motivated him? Did he have help staging the attacks? The evidence suggests a startling truth: that this was the work of one man, pursuing a mission he was convinced was just. If Breivik did indeed act alone, he wouldn't be the first. Timothy McVeigh bombed a federal building in Oklahoma City based essentially on his own motivations. Eric Robert Rudolph

embarked on a campaign of terror over several years, including the Centennial Park bombing at the 1996 Olympics. Ted Kaczynski was revealed to be the Unabomber that same year. And these are only the most notable examples. As George Michael demonstrates in *Lone Wolf Terror and the Rise of Leaderless Resistance*, they are not isolated cases. Rather, they represent the new way warfare will be conducted in the twenty-first century. *Lone Wolf Terror* investigates the motivations of numerous political and ideological elements, such as right-wing individuals, ecoextremists, foreign jihadists, and even quasi-governmental entities. In all these cases, those carrying out destructive acts operate as "lone wolves" and small cells, with little or no connection to formal organizations. Ultimately, Michael suggests that leaderless resistance has become the most common tactical approach of political terrorists in the West and elsewhere.

This book reflects on the life and politics of Nelson Mandela (1918–2013) and his efforts to broker peace and reconciliation

in a deeply divided country. Through examples from apartheid and post-apartheid South Africa, it explores conflict and methods for realising peace, social justice, and democracy. The book looks at the festering of animosity and racial bitterness between the white Afrikaner community and the black community during years of racial violence, injustices, and authoritarianism in South Africa. In the most violent phase of the country's history, Mandela offered to both communities peaceful means to ensure equality, justice, and inclusivity. The author highlights the extraordinary challenges which Mandela faced in mobilising consent and persuading both the black and the Afrikaner community to acquiesce to a peaceful transfer of power. The volume further details the socio-political contexts and negotiations which resulted in the swift transfer of power, Mandela's insistence on crafting inclusive systems of nationhood, his multi-cultural cabinet, and the institutionalisation of a Truth and Reconciliation Commission to address challenges facing the two communities in the post-conflict period. An accessible introduction to one of the

greatest leaders in contemporary history, this book will be essential reading for scholars and researchers of peace and conflict studies, social exclusion and discrimination, critical race theory, human rights, politics, decolonisation and post-colonial studies, sociology, and history. Sex, drugs, revolution and the dawn of the Peace Corps. In 1963 volunteer Jack Harjo sits in the jungles of Costa Rica pondering three questions: is there a greater good; does it apply here; and can you really trademark Panama Red, Acapulco Gold and Maui Wowie? Che Guevara's Marijuana and Baseball Savings and Loan reveals the writer at his artistic best. Jack Shakely captures those rich, wild and crazy 1960's as a Peace Corps Volunteer in Costa Rica, bringing us a deep understanding of all the unexpected, random craziness and adventure that comes to those willing to

try and make this a better world. A good writer has to be an even better story teller and Shakely excels at both. He moves us through the life of Jack Harjo, growing up with a mixed-blood Creek Indian father and a talented Anglo newspaper columnist mother in the small Oklahoma town of Ardmore. The bonds that inform and shape Shakely are revealed in the role that his mother and Bob Hogan, the editor of the local newspaper, play in developing his love of language and journalism. The convergence of this love, getting at the truth, and his love of baseball are the three chords that hold this song and story together and make it so engaging. Harjo's studies at the University of Oklahoma bring us into contact with the coming-of-age craziness of the era, especially as it applies to a big state university in a small, conservative town. Shakely introduces us to a right-wing conservative politician and weaves him, and his rebellious daughter, into and through the story in a way that makes the reader wonder if this were the 1960's or today. As the story moves into Costa Rica and the upheaval of the 60's in Central America, the reader is given a quick primer on how so many of the pieces

of the puzzle fit together Castro, Cuba, Nicaragua, poverty, revolution and how those forces are still at work today. The pure excitement of Kennedy and the creation of the Peace Corps and why it was so widely embraced has never been better explained. Whether this is autobiographical or pure fiction, we are all better for the quality of writing that Shakely shares with us. You will be rewarded by reading it. Steve Vetter
