Journey to the River

Sea John Wiley & Sons
This Handbook provides
the first in-depth analysis

of non-violent extremism across different ideologies and geographic centres, a topic overshadowed until now by the political and academic focus on violent and jihadi extremism in the Global North. Whilst acknowledging the potentiality of non-violent extremism as a precursor to terrorism, this Handbook argues that non-violent extremism ought to be considered a stand-alone area of study. Focusing on Islamist, Buddhist, Hindu, far-right, far-left, environmentalist and feminist

manifestations, the Handbook discusses the ideological foundation of their 'war on ideas' against the prevailing socio-political and cultural systems in which they operate, and provides an empirical examination of their main claims and perspectives. This is supplemented by a truly global overview of non-violent extremist groups not only in Europe and the United States, but also in Africa, Asia, Oceania and the Middle East. The Handbook thus answers a call to decolonise

knowledge that is especially prescient given both the complicity of non-violent extremists with authoritarian states and the dynamic of oppression towards more progressive groups in the Global South. The Handbook will appeal to those studying extremism, radicalisation and terrorism. It intersects several relevant disciplines, including social movement studies, political science, criminology, Islamic studies and anthropology. *The Guerrilla Marketing*

More than 120 authors from science and industry have documented this essential resource for students, practitioners, and professionals. Comprehensively covering the development of the internal combustion engine (ICE), the

information presented captures expert knowledge and serves as an essential resource that illustrates the latest level of knowledge about engine development. Particular attention is paid toward the most up-to-date theory and practice addressing thermodynamic principles, engine components, fuels, and emissions. Details and data cover classification and characteristics of reciprocating engines, along with fundamentals about diesel and spark

ignition internal combustion engines, including insightful perspectives about the history, components, and complexities of the present-day and future IC engines. Chapter highlights include: • Classification of reciprocating engines • Friction and Lubrication • Power, efficiency, fuel consumption • Sensors, actuators, and electronics • Cooling and emissions • Hybrid drive systems Nearly 1,800 illustrations and more than 1,300 bibliographic references

provide added value to this extensive study. "Although a large number of technical books deal with certain aspects of the internal combustion engine, there has been no publication until now that covers all of the major aspects of diesel and SI engines." Dr.-Ing. E. h. Richard van Basshuysen and Professor Dr.-Ing. Fred Schäfer, the editors, "Internal Combustion Engines Handbook: Basics, Components, Systems, and Perspectives" Boating Life Trafford

Rather than reduce the planning

process to mechanistic, step-by-step instructions, which promote “thinking inside the box,” author E.K. Valentin provides practical planning guidelines that encourage creative strategic problem solving. Drawing on both his business experience and the business literature, he explains not only what entrepreneurs and executives should look at when pondering plans and strategies, but also what they should look for. The book’s unique applied perspective, sets Business

Planning & Market Strategy apart from conventional “how to” planning guides. *Popular Mechanics* Copyright Office, Library of Congress
Oi Amigo! Experience the amazing mighty Amazon! It's the steamy setting for this colourful South American tale of an old family company dealing in jungle medicinal plants. The venerable firm is corrupted by lust, corporate greed, gratuitous affluence, shady characters, and duplicitous transactions.

Genetic tinkering and environmental destruction run amuck amidst the grinding subsistence life of the Amazon natives. Rune Erikson is cast as the altruistic hero as he comes to the rescue of a statuesque Brazilian heiress brutally targeted during a medical conference in Victoria. Hiding her aboard the Valhalla, Rune is love-struck. Hitching a ride with her on Dredmann Industries corporate jet, it delivers them unto the evil Dr. Manglar. Bianca Penthesilia Monteiro fights

back against Gunther Dredmann, known by his victims as Dr. Death, when her family's business is ruthlessly subjected to a hostile takeover. Fast Eddie, an old buddy of Rune's who has fallen into the bottle, teams up to help with his Grumman Goose flying boat. An ancient family enigma is revealed when a five-hundred-year-old Portuguese leather trunk is opened. A wizened soothsayer casts his cryptic prophecies as a centuries-old Portuguese sword comes scything

down in an old Brazilian prison, sparking primeval powers in its possessor. This intriguing fourth novel in a series features the somewhat jaded but dashing Rune Erikson who slogs through the piranha-infested Amazon with his Grumman Goose flying buddy, Fast Eddie, in a torturous survival trek. Rune and his Brazilian heiress babe are caught up in a sinister plot of unimaginable consequences. Coloured by romance and spiced with eroticism, this adventure lures Rune off

his sailing ketch, Valhalla, in Victoria's Fisherman's Wharf into the enticing arms of a young, hot-blooded Latin American woman whose powerful matriarchal lineage is unknowingly steeped in the ancient myths and secret sagas of the steamy Amazon.
