I finally did it! I created a puzzle book that everyone loves to solve. A cryptogram or cryptoquote is a puzzle where the letters of a

quotation are rearranged, and you try to crack the code. Solving cryptograms always gives me a better feeling than when I solve repetitive sudoku or word searches, and they are even more exciting than crosswords. If you want a challenging mental workout, enjoy insightful ideas, or want to discover unexpected solutions, then you also need to experience the thrill of cryptograms. In this book, you will find: Fiver hundred carefully selected cryptogram puzzles, two sets of hints,

full solutions, and some tips on how to solve them. I searched through thousands of quotations to create the best puzzles for you. This book is meticulously formatted and proofread - no spinning your wheels on typos, grammar mistakes, hint errors, or code repetitions. LARGE PRINT FORMATTING! Your eyes will thank you, and there is plenty of space for finding solutions. A variety of simple, medium, and hard difficulty puzzles, but no dull or impossible

solutions. These puzzles are suitable for kids or adults. I don't use quotations with swear words or nasty phrases. Keep your brain young and fit. Puzzle-solving can slow or reduce cognitive decline. Imagine puzzle solutions that reveal insightful and wise sayings, so that you can have a smile on your face each day. I realize that most people don't get just one puzzle book, but please be careful. There are many books using thousands of quotations, but I doubt they are all

interesting. Other books may have frustrating typos, lousy formatting, or force you to solve obscenities. I wouldn't want any of that to happen to you. Now, I am blessed to provide you with the second volume from my best-selling Amazon series with top reviews.
