 Tun-huang Popular Narratives presents authoritative translations of four vernacular Chinese stories, taken from fragmentary texts usually referred to as pien-wen or 'transformation texts'. Dating from the late T'ang (618-907) and Five Dynasties (907-959) periods, the texts were

discovered early last century in a cave at Tun-huang, in Chinese Central Asia. However, written down in an early colloquial language by semi-literate individuals and posing formidable philological problems, the texts have not been studied critically before. Nevertheless they represent the only surviving primary evidence of a widespread and flourishing world of popular entertainment during these centuries. The tales deal with both religious (mostly

Buddhist) and secular themes, and make exciting and vivid reading. The Bible in Aramaic. Vol. 2 Mohr Siebeck

Jewish Life in the Middle Ages BRILL
 Both scholars and popular writers have long been fascinated with the cult of Molek in the Old Testament. Writers from John Milton to Charles Dickens have been tantalized by the awful rite of sacrifice. Heider's

volume evaluates the significance of the Molek cult with regard to the biblical, archaeological, and literary evidence. He begins with a broad history of scholarship on Molek from the seventeenth century onward, paying special attention to the contributions of Otto Eissfeldt and Moshe Weinfeld. He also surveys the literary evidence-in-particular the Eblaite, Amorite, Ugaritic, Akkadian, and Phoenician evidence. He also examines the

archaeological evidence from the Mesopotamian region. The book concludes with a detailed look at the relevant biblical texts, with a detailed look at Leviticus 18 and 20, Genesis 22, and various passages in Isaiah, Jeremiah, Ezekiel, and the Minor Prophets. The Word Biblical
Commentary delivers the best in biblical scholarship, from the leading scholars of our day who share a

commitment to Scripture as divine revelation. This series emphasizes a thorough analysis of textual, linguistic, structural, and theological evidence. The result is judicious and balanced insight into the meanings of the text in the framework of biblical theology. These widely acclaimed commentaries serve as exceptional resources for the professional theologian and instructor, the seminary or university student, the working minister, and everyone

concerned with building theological understanding from a solid base of biblical scholarship. Overview of Commentary Organization
Introduction—covers issues pertaining to the whole book, including context, date, authorship, composition, interpretive issues, purpose, and theology. Each section of the commentary includes: Pericope Bibliography—a helpful resource containing the most important works that pertain to each particular pericope. Translation—the

author's own translation of the biblical text, reflecting the end result of exegesis and attending to Hebrew and Greek idiomatic usage of words, phrases, and tenses, yet in reasonably good English. Notes—the author's notes to the translation that address any textual variants, grammatical forms, syntactical constructions, basic meanings of words, and problems of translation.

Form/Structure/Setting—a discussion of redaction, genre, sources, and

tradition as they concern the origin of the pericope, its canonical form, and its relation to the biblical and extra-biblical contexts in order to illuminate the structure and character of the pericope. Rhetorical or compositional features important to understanding the passage are also introduced here.

Comment—verse-by-verse interpretation of the text and dialogue with other interpreters, engaging with current opinion and scholarly research.

Explanation—brings

together all the results of the discussion in previous sections to expose the meaning and intention of the text at several levels: (1) within the context of the book itself; (2) its meaning in the OT or NT; (3) its place in the entire canon; (4) theological relevance to broader OT or NT issues. General Bibliography—occurring at the end of each volume, this extensive bibliography contains all sources used anywhere in the commentary.

 Cuneiform records made some three thousand years ago are the basis for this essay on the ideas of death and the afterlife and the story of the flood which were current among the ancient

peoples of the Tigris-Euphrates Valley. With the same careful scholarship shown in his previous volume, *The Babylonian Genesis*, Heidel interprets the famous Gilgamesh Epic and other related Babylonian and Assyrian documents. He compares them with corresponding portions of the Old Testament in order to determine the inherent historical relationship of Hebrew and Mesopotamian ideas.

Gesenius' Hebrew grammar BRILL

A masterful intersection of Bible Studies, Gender Studies, and Rabbinic law,

Diane Kriger explores the laws pertaining to female slaves in Jewish law.

Comparing Biblical strictures with later Rabbinic interpretations as well as contemporary Greco-Roman and Babylonian codes of law, Kriger establishes a framework whereby a woman's sexual identity also indicates her legal status. With sensitivity to the nuances in both ancient laws and ancient languages, Kriger adds greatly to our understanding of gender, slave status, and the

matrilineal principle of descent in the Ancient Near East.

This volume is intended primarily to equip students for the reading of the Targums and the Aramaic portions of the Palestinian Talmud and Midrashim, and to provide a help to the study of the Aramaic elements contained in the writings of the New Testament.

The Aramaic of the books of Ezra and Daniel

is perhaps best learned after a study has been made of one of the dialects just named. Its forms and uses, therefore, are noted in a supplementary way throughout the grammar. At the same time those who choose to begin with Old Testament Aramaic may do so with the help of the special paradigms at the end of the book. . . .

"An important work which cannot be ignored." - Journal of Biblical Literature "The author has undertaken an objective evaluation of the more serious scholarly attempts at reconstructing the early Patriarchal Period during the past half century of archaeologically oriented research. . . . He presents a wealth of extra biblical material, in conjunction with the biblical, to determine how much of the data dealing with Abraham (and in part with Isaac) are historical and

how the data in general are to be handled. . . . The study provides a badly needed whiff of fresh air in a period whose scholarly atmosphere has become stale. Three useful indexes . . . bring this volume to a close." - Harry Orlinsky, JWB Circle "Old Testament Scholars have learned to expect critical precision and provocative insight from the pen of John Van Seters. His book on the Abraham traditions meets those expectations in detail not previously available in print and this

must be welcomed by all involved in Pentateuchal research." -George W. Coats, Interpretation Abraham in History and Tradition evaluates previous scholarly insight on the early patriarchal period while challenging many dominant views in Biblical Studies and providing criticism on tradition history and documentary hypothesis. Upon its initial publication in 1975, this landmark work provided fresh insight in the fields of Near Eastern Studies and Biblical Archaeology. Well-

researched and cogent, Van Seter's groundbreaking analysis remains relevant and continues to inspire new research in the present. John Van Seters is Professor Emeritus in the Department of Religious Studies at the University of North Carolina, Chapel Hill. *Dictionnaire Hébreu-Français* BRILL This volume represents the current state of Septuagint studies as reflected in papers presented at the triennial meeting of the

International Organization for Septuagint and Cognate Studies (IOSCS). It is rich with contributions from distinguished senior scholars as well as from promising younger scholars whose research testifies to the bright future and diversity of the field. The volume is remarkable in terms of the number, scholarly interests, and geographical distribution of its contributors; it is by far the largest congress volume to date. More than fifty papers represent viewpoints and

scholarship from Belgium, Canada, Cameroon, Finland, France, Germany, Israel, Korea, The Netherlands, South Africa, Spain, the United Kingdom, and the United States.

The book analyses different theories concerning the origin of Gnosticism and the use of lore from the Old Testament and Judaism in Gnostic literature and searches for an answer to the following question -

could the use of lore from the Old Testament and Judaism in Gnostic literature validate the theory that Gnosticism is of Jewish origin?
