Debating Globalization is a short, accessible introduction to the debate about globalization written by many of the most prominent figures in the field. Published by Polity in association with openDemocracy, the book is notable not just for focusing on the pressing difficulties facing our world, but also on solutions. Rich and positive suggestions are made for reshaping globalization into a force that will work for humans everywhere. In an extended analysis, David Held provides a robust critique of the present order and sets out his alternative vision. Building on arguments he made in *Global Covenant*, he calls for a new global political agenda, informed by social democratic political values. His analysis has been criticized by leading figures and their responses follow in this book. There are chapters by, among others, Martin Wolf, Roger Scruton, Grahame Thompson, David Mepham, Meghnad Desai, Maria Livanos Cattau, Patrick Bond, Benjamin Barber, John Elkington, Takashi Inoguchi, Narcís Serra, and Anne-Marie Slaughter and Thomas N. Hale. The volume ends with David Held's reply to his critics. The book provides a fascinating introduction to the debate about globalization today.

A CNN political analyst and a Republican strategist reframe the discussion of the "Trump voter" to answer the question, What's next? NAMED ONE OF THE BEST BOOKS OF THE YEAR BY FOREIGN AFFAIRS • "Unlike most retellings of the 2016 election, *The Great Revolt* provides a cohesive, non-wild-eyed argument about where the Republican Party could be headed."—*The Atlantic* Political experts were wrong about the 2016 election and they continue to blow it, predicting the coming demise of the president without pausing to consider the durability of the winds that swept him into office. Salena Zito and Brad Todd have traveled over 27,000 miles of country roads to interview more than three hundred Trump voters in ten swing counties. What emerges is a portrait of a group of citizens who span job descriptions, income brackets, education levels, and party allegiances, united by their desire to be part of a movement larger than themselves. They want to put pragmatism before ideology and localism before globalism, and demand the respect they deserve from Washington. The 2016 election signaled a realignment in American politics that will outlast any one president. Zito and Todd reframe the discussion of the "Trump voter" to answer the question, What's next?

'A SERIOUSLY NECESSARY BOOK.' ROWAN WILLIAMS, FORMER ARCHBISHOP OF CANTERBURY 'A MUST READ.' MIQDAAD VERSI, MUSLIM COUNCIL OF BRITAIN 'A COMPELLING AND COMPASSIONATE SURVEY OF BRITISH ISLAM.' THE GUARDIAN 'A TIMELY BOOK.' BARONESS WARSI 'HUGELY IMPORTANT.' PETER OBORNE 'HEARTENING.' DAVID ANDERSON QC
In this groundbreaking book, James Fergusson travels the length of Britain to explore our often misunderstood Muslim communities, and to experience life on both sides of our increasingly segregated society. The face of Britain is changing. The Muslim population has more than doubled over the last twenty years, and is projected to do so again over the next twenty. A societal shift of this size and speed has inevitably brought growing pains, with the impact on our communities becoming ever more profound – as well as painful, because in the eyes of many, Islam has a problem: the extremist views of a tiny minority, which, when translated into action, can result in catastrophic violence. The danger of this extremist threat – or our response to it – is that we are collectively starting to lose faith in the cultural diversity that has glued our nation together for so long. Our tolerance of others, so often celebrated as a 'fundamental British value,' is at risk. In this groundbreaking book, James Fergusson travels the length of Britain to evaluate the impact these seismic shifts have had on our communities. With the rise of nationalist movements, growing racial tensions and an increasingly out of touch political elite, what does it mean to be a Muslim in Britain? What is life like on both sides of this growing religious divide? And what can we do to heal the fractures appearing in our national fabric? *Al-Britannia, My Country* is a timely and urgent account of life in Britain today, a call to action filled with real-life experience, hard truths and important suggestions for our future.

A stunningly insightful account of the global political and economic system, sustained first by Britain and now by America, that has created the modern world. The key to the two countries' predominance, Mead argues, lies in the individualistic ideology inherent in the Anglo-American religion. Over the years Britain and America's liberal democratic system has been repeatedly challenged—by Catholic Spain and Louis XIV, the Nazis, communists, and Al Qaeda—and for the most part, it has prevailed. But the current conflicts in the Middle East threaten to change that record unless we foster a deeper understanding of the conflicts between the liberal world system and its foes.

NATIONAL BESTSELLER • WINNER OF THE PULITZER PRIZE • A searing, post-apocalyptic novel about a father and son's fight to survive, this "tale of survival and the miracle of goodness only adds to McCarthy's stature as a living master. It's gripping, frightening and, ultimately, beautiful" (San Francisco Chronicle). A father and his son walk alone through burned America. Nothing moves in the ravaged landscape save the ash on the wind. It is cold enough to crack stones, and when the snow falls it is gray. The sky is dark. Their destination is the coast, although they don't know what, if anything, awaits them there. They have nothing; just a pistol to defend themselves against the lawless bands that stalk the road, the clothes they are wearing, a cart of scavenged food—and each other. *The Road* is the profoundly moving story of a journey. It boldly imagines a future in which no hope remains, but in which the father and his son, "each the other's world entire," are sustained by love. Awesome in the totality of its vision, it is an unflinching meditation on the worst and the best that we are capable of: ultimate destructiveness, desperate tenacity, and the tenderness that keeps two people alive in the face of total devastation. Look for Cormac McCarthy's new novel, *The Passenger*.

A panoramic narrative of the years leading up to the Second World War—a tale of democratic crisis, racial conflict, and a belated recognition of evil, with profound resonance for our own time. Berlin, November 1937. Adolf Hitler meets with his military commanders to impress upon them the urgent necessity for a war of aggression in eastern Europe. Some generals are unnerved by the Führer's grandiose plan, but these dissenters are silenced one by one, setting in motion events that will culminate in the most calamitous war in history. Benjamin Carter Hett takes us behind the scenes in Berlin, London, Moscow, and Washington, revealing the unsettled politics within each country in the wake of the German dictator's growing provocations. He reveals the fitful path by which anti-Nazi forces inside and outside Germany came to understand Hitler's true menace to European civilization and

learned to oppose him, painting a sweeping portrait of governments under siege, as larger-than-life figures struggled to turn events to their advantage. As in *The Death of Democracy*, Hett draws on original sources and newly released documents to show how these long-ago conflicts have unexpected resonances in our own time. To read *The Nazi Menace* is to see past and present in a new and unnerving light.

This thought-provoking book offers a new global approach to understand how four social class structures have rocked our political systems, to the extent that no politician or political party can exist today without claiming to be speaking on their behalf, and no politician can hope to win an electoral majority without building a coalition among these classes. Based on a four-fold analysis - Urban and Liberal Creatives, Suburban Middle Class, White Working Class and the Millennials - this book shows that while many have focused on a supply-side vision of politics to explain the upheavals in our political party systems, a vision centred on demand - and the Weberian take on political parties as vehicles for class interests - is more compelling. In 2016, our political world was changed forever by the victories of Brexit in the UK and Donald Trump in the USA. Far from being confined to the Anglosphere however, changes have also rocked the political landscapes in Europe. As the crisis of 2008 has shaken the foundations of Western societies, shrinking the size of the previously all-powerful middle class, new classes have emerged, and with them a new political demand that new (or old) parties have tried to satisfy. This book will be of key interest to political practitioners (politicians, advisors/consultants, journalists, political pundits, party builders, and government officials) and more broadly to academics, students and readers of European and Western politics, political sociology, party politics and political parties, and electoral demographics.

Society is full of would-be 'change agents'-campaigners, government officials, enlightened business people, engaged intellectuals-set on improving public services, reforming laws and regulations, guaranteeing human rights, achieving a fairer deal for those on the sharp end, and greater recognition for any number of issues. Drawing on many first-hand examples and numerous new case studies and interviews with grassroots activists and organizations around the world, as well as Oxfam's unrivalled global experience, this important book answers the question: how does change happen and how can we-governments, organizations, businesses, leaders, campaigners, employees, and ordinary citizens-make a difference?

A history of the British Empire told through twenty meals eaten around the world In *The Taste of Empire*, acclaimed historian Lizzie Collingham tells the story of how the British Empire's quest for food shaped the modern world. Told through twenty meals over the course of 450 years, from the Far East to the New World, Collingham explains how Africans taught Americans how to grow rice, how the East India Company turned opium into tea, and how Americans became the best-fed people in the world. In *The Taste of Empire*, Collingham masterfully shows that only by examining the history of Great Britain's global food system, from sixteenth-century Newfoundland fisheries to our present-day eating habits, can we fully understand our capitalist economy and its role in making our modern diets.

Sovereignty Or Submission Routledge

Across the democratic West, politics has become deeply polarised and profoundly personal. Challenge someone's political views and increasingly you challenge their very being. And yet, do our political tribes even make sense? Look carefully, and on the most important ethical issues of the age – assisted dying, social welfare, sexual liberation, abortion, gun control, the environment, technology, justice – the instinctive positions of both the Left and the Right are riven with contradictions. In this refreshing and eye-opening book, James Mumford, a public thinker and independent commentator, questions the basic assumptions of our political groups. His challenge is simple: 'Why should believing strongly about one topic mean the automatic adoption of so many others?' Vexed is an essential and provocative account that will appeal to anyone of independent thought, and a welcome call for new reflection on the moral issues most relevant to our modern way of life.

How the French Saved America W. W. Norton & Company

Many Remainers reported waking up the day after the Brexit vote feeling as if they were living in a foreign country. In fact, they were merely experiencing the same feeling that many British people have felt every day for years. Fifty years ago, people in leafy North London and people in working-class Northern towns could vote for a Labour party that broadly encompassed all of their interests. Today their priorities are poles apart. In this groundbreaking and timely book, Goodhart shows us how people have come to be divided into two camps- the 'Anywheres', who have 'achieved' identities, derived from their careers and education, and 'Somewheres', who get their identity from a sense

of place and from the people around them, and who feel a sense of loss due to mass immigration and rapid social change. In a world increasingly divided by Brexit and Trump, Goodhart shows how Anywheres must come to understand and respect Somewhere values to stand a fighting chance against the rise of populism.

The Road Back to You Penguin

A robust and timely investigation into the political and moral fault-lines that divide Brexit Britain and Trump's America -- and how a new settlement may be achieved. Several decades of greater economic and cultural openness in the West have not benefited all our citizens. Among those who have been left behind, a populist politics of culture and identity has successfully challenged the traditional politics of Left and Right, creating a new division: between the mobile "achieved" identity of the people from Anywhere, and the marginalized, roots-based identity of the people from Somewhere. This schism accounts for the Brexit vote, the election of Donald Trump, the decline of the center-left, and the rise of populism across Europe. David Goodhart's compelling investigation of the new global politics reveals how the Somewhere backlash is a democratic response to the dominance of Anywhere interests, in everything from mass higher education to mass immigration.
