Barney Hall has been covering NASCAR racing since 1958. He was working in turn-three and had a birds-eye view of the finish between Cale Yarborough and Donnie Allison when they had the fistfight at Daytona in 1979. He was close friends with David Pearson in the '70s and spent a lot of time flying with him. He also witnessed the unforgettable '76 Daytona finish between Richard Petty and Pearson. In Barney Hall's Tales from the Trackside, he reflects on many memorable stories, including Bill Elliott winning the Winston Million in 1985. At that time, it was unheard of for a stock car driver to win a million dollars.

Pure Gold brings together 25 former players, staff members, and

coaches to provide first-person insight into the all-time winningest coach in NCAA Division 1-A college football: readers travel the interstates and back roads with Barnes and Bobby Bowden as they spread the word of FSU football; longtime secretary Sue Hall describes the so-called CEO of Florida State football; Tom Osborne, a legendary college football coach himself, reveals what it is like to coach against Bobby Bowden; former Bowden assistant and Georgia head coach Mark Richt retells the life-changing effect Bowden's first meeting with FSU players following the death of Pablo Lopez had on him. FSU president T. K. Wetherell, who once played football under assistant coach Bowden, remembers what it was like to take orders from Bobby. Wetherell reflects on his playing days and on the time he saw Bowden at his most vulnerable, in the days that followed the tragic death of his grandson, Bowden Madden. He and others who know the veteran coach well take readers from the Bowden Era of rebuilding to the celebration of two national championships and beyond -- through recent seasons in which

Bowden has faced more criticism and received more accolades than at any time during his career. Wetherell summarizes Bobby's legacy thusly: "Ultimately, you remember him not for a football win, but for the character he brings to the table."

The true story of Edith Blais's 450 days of captivity in the Sahara Desert at the hands of terrorists--and her stunning escape to freedom. In January 2019, news outlets reported that a young Canadian woman and her Italian companion were presumed kidnapped while traveling in Africa's Sahel region, a haven for jihadist groups. Little was known about the pair's fate until they reappeared in Mali fifteen months later, having apparently escaped their captors. Now, in *The Weight of Sand*, Edith Blais tells the harrowing story of her 450 days of captivity in the Sahara and her courageous escape. In striking, sensitive prose, she recounts the prolonged terror of her months as a hostage, enduring violent sandstorms, grueling hunger strikes, extreme isolation, and the unpredictability of her captors. The book also includes luminous poems Edith wrote in secret, which became a lifeline of creativity and one of the few possessions she smuggled out in her escape. A compelling descent into a strange, brutal universe, *The Weight of Sand* is ultimately a life-affirming book--a celebration of resilience by a woman who refused to have her humanity stripped away.

The New York Times bestselling novel by the Goodreads Choice Awards Best Debut Author of 2016, published in 15 countries! Mortals rule the desert nation of Miraji, but mythical beasts still roam the wild and remote areas, and rumor has it that

somewhere, djinn still perform their magic. For humans, it's an unforgiving place, especially if you're poor, orphaned, or female. Amani Al'Hiza is all three. She's a gifted gunslinger with perfect aim, but she can't shoot her way out of Dustwalk, the back-country town where she's destined to wind up wed or dead. Then she meets Jin, a rakish foreigner, in a shooting contest, and sees him as the perfect escape route. But though she's spent years dreaming of leaving Dustwalk, she never imagined she'd gallop away on mythical horse—or that it would take a foreign fugitive to show her the heart of the desert she thought she knew. This startlingly original Middle-East-meets-Wild-West fantasy reveals what happens when a dream deferred explodes—in the fires of rebellion, of romantic passion, and the all-consuming inferno of a girl finally embracing her power.

 Race cars careening around yet another turn seem commonplace today, but the sport had to maneuver around some daunting roadblocks just to get to the start-finish line and faces more in the future. In *Around the Turn*, NASCAR historian Bill Lazarus documents NASCAR's greatest triumphs, and some of its more bizarre moments ... *The first unofficial race, where six hardy drivers dodged snowballs and hypothermia. *The arrival of media savvy drivers like Richard Petty who nevertheless led a short-lived strike. *The growth in prestige from early derision to the surprise visit by President Ronald Reagan along with kings and Hollywood royalty. *The 1979 fistfight that sparked media interest and prompted widespread television coverage. *The roadblocks now facing NASCAR as it seeks a wider audience amid

rising costs and growing competition. Around the Turn is a perfect companion volume to Sands of Time: Celebrating 100 Years of Racing (also by William P. Lazarus), taking readers on a wild ride through racing history.

Beyond the Sand Storm is a story of human destiny, defiance, and history. It is part biography, a narration of an Iraqi doctor who flees her country in the wake of the 2003 war. It is also a unique historical and social perspective on Iraq and its culture. The novel traces the life of Dr. Malka Al Saadi, a gifted physician, humanitarian, scientist, mother, and war victim who rises from humble beginnings to head one of the most prestigious medical departments in Iraq. Through the eyes of this amazing and courageous woman, a detailed and moving description unfolds, recounting daily life experiences, characters, and challenges faced over three historical eras. Her distinctive perspectives intersect and present the reader with a truly remarkable picture of what it was like to live in Iraq during the last half century. The account also offers insight into the cultural, social, and political arenas in Iraq from the 1930s onward. The book describes, in thought-provoking and challenging ways, the obstacles, pain, fear, and hope that accompany this evolution. The saga of Professor Al Saadi begins with her childhood in Iraq, and continues over the course of her advanced medical studies in the United Kingdom, a triumphant return to Iraq, and later the experiences in the 1980, 1991, and 2003 wars. Through a firsthand account, the book takes the reader on a trip through the medical and wider social developments in Iraq, and the challenges and losses of three wars. It is a detailed, emotional,

and sometimes daring account, but above all, it is a story of human resilience, humility, humanity, and perseverance summarizing over seventy years of personal and geopolitical events that shaped not only the authors life but todays Middle East. The book concludes with a warm portrait of life in the city of Philadelphia, in the United States, where the author currently resides happily with her family. She shares the positive impact this city has had on her and her familys life. In an East-meets-West biography, the book uses simple language written from the heart to describe an astonishing forty-five-year-career.

The most beloved and decorated player in Florida history takes fans behind the scenes and into the locker room for one of the greatest eras in the annals of college football. Heisman Trophy-winning quarterback Danny Wuerffel, now retired from the NFL, has finally had the time to look back, reminisce, and share his thoughts about that magical time when he was referred to by some "as the greatest passer to ever play college football." Wuerffel gives his many fans a first-time reflection into a variety of topics, including his relationship with Steve Spurrier, his rivalry with Peyton Manning, and how his strong Christian beliefs shaped his football career. Along with award-winning sports columnist and coauthor Mike Bianchi, he replays the big games from each of his four magnificent seasons, talks about the quarterback controversies and quandaries, discusses faith and football, compares Spurrier and Bobby Bowden, and takes readers on a glorious trip that starts with a recruiting visit to Gainesville and culminates with an incredible national championship victory over Florida State in New Orleans. Danny Wuerffel's Tales from the

Gator Swamp will take readers on a delightful journey back to the "good old days" of the 1990s, when Spurrier's funning and gunning and cunning style of offense revolutionized the Southeastern Conference. After reading this book, fans will understand why Danny Wuerffel collected as much admiration and as many accolades as perhaps any player in the proud history of college football.

The Sands of Time takes readers on a wild ride through the century of action, from the first makeshift race in 1903 to the incredible panorama of the 2003 Daytona 500. Each aspect of the story is accented with colorful anecdotes, featuring the cultured drivers of the early 1900s, jauntily racing against the clock in immaculate uniforms and scarves waving in the breeze, to the roughnecks from the Southern woods, who found themselves in jail as often as Victory Lane, to today's famous athletes who dare the famed high banks at speeds close to 200 mph. Each chapter also includes additional details on such topics as women drivers, sponsors and prize money, as well as origin of race flags, development of tires and the sites of forgotten tracks. The book is extensively illustrated with rarely seen photos drawn from ISC Publications Archives, the largest single collection of race photos in the world. The account is centered in Daytona Beach, a small

Florida community that hosted the first race in 1903 and has come to embody motor sports in this country. Today, historic Daytona International Speedway remains the World Center of Racing. Written for a general audience, The Sands of Time brings to life an entire era, filled with colorful personalities and exciting on-track events that help explain why racing is now the largest spectator sport in America.'

When Elmer Kelton died in the fall of 2009, the literary world lost a consummate writer, a man the New York Times called a "novelist who brought the sensibility of the old-style western to bear on a modern Texas landscape of oil fields and financially troubled ranches." Kelton was also a modest, kind man, always willing to advise a struggling writer or write a blurb for a first time published author, or assign publishing rights to his six masterpieces to a small university press. TCU Press owes a great debt of gratitude to Kelton, and this volume, Elmer Kelton: Memories and Essays, attempts to explore just what it is that made Kelton its leading author. Editors Judy Alter and James Ward Lee gathered together a group of Kelton aficionados who had either published or taught or sold his books, or were simply friends. In several meetings, they divided up the main themes of Kelton's writing: Alter provides the overview of Kelton's career; Felton Cochran, longtime owner of Cactus Books in San Angelo, describes how the friendship between bookstore owner and author grew over the years; Ricky Burk, pastor of the church from which Kelton was buried, talks about the man's influence in his community; Kelton's son, Steve, explains how Kelton's career as journalist permeated his novels; Ruth McAdams, who has taught

Kelton for years, explores how he deals with the themes of endurance and change; Joyce Roach delicately covers how race and ethnicity figure in Kelton's plots and the development of his unforgettable characters; Lee gives readers his inimitable take on the Hewey Calloway Trilogy—The Good Old Boys, The Smiling Country, and Six Bits a Day; and Bob J. Frye takes a wry look at Kelton's use of humor throughout his career. The book also contains Kelton's own view of the history of the Western novel, a response to revisionist criticism. And finally Cochran provides us a list of most, not all, of Elmer Kelton's extraordinary body of work.

A finalist for the PEN/E. O. Wilson Literary Science Writing Award The gripping story of the most important overlooked commodity in the world--sand--and the crucial role it plays in our lives. After water and air, sand is the natural resource that we consume

more than any other--even more than oil. Every concrete building and paved road on Earth, every computer screen and silicon chip, is made from sand. From Egypt's pyramids to the Hubble telescope, from the world's tallest skyscraper to the sidewalk below it, from Chartres' stained-glass windows to your iPhone, sand shelters us, empowers us, engages us, and inspires us. It's the ingredient that makes possible our cities, our science, our lives--and our future. And, incredibly, we're running out of it. The World in a Grain is the compelling true story of the hugely important and diminishing natural resource that grows more essential every day, and of the people who mine it, sell it, build with it--and sometimes, even kill for it. It's also a provocative examination of the serious human and environmental costs incurred by our dependence on sand, which has received little public attention. Not all sand is created equal: Some of the easiest sand to get to is the least useful. Award-winning journalist Vince Beiser delves deep into this world, taking readers on a journey across the globe, from the United States to remote corners of India, China, and Dubai to explain why sand is so crucial to modern life. Along the way, readers encounter world-changing innovators, island-building entrepreneurs, desert fighters, and murderous sand pirates. The result is an entertaining and eye-opening work, one that is both unexpected and involving, rippling with fascinating detail and filled with surprising characters.

In the 1970s, when the idea of a woman competing successfully with men in any form of motorsports was radical notion, a young woman from Schenectady, New York, began her singular quest to

change the chauvinistic mindset that prevailed in professional drag racing. Shirley Muldowney not only broke the gender barrier in the National Hot Rod Association, but also completely rewrote the record books in Top Fuel Eliminator, the sport's quickest and fastest category. She was the first woman ever to receive a Top Fuel license from the NHRA, and none other than "Big Daddy" Don Garlits was one of the veteran drivers who signed off on it. Between 1977 and 1982, Muldowney won three NHRA Top Fuel championships--the first female ever to win a title in any professional motorsport--and added an AHRA Top Fuel championship to her resume, as well. She won the prestigious NHRA U.S. Nationals in 1982 and, before her retirement at the end of the 2003 season, had become one of the most recognized and celebrated race car drivers in history, male or female. She was recently inducted into the International Motorsports Hall of Fame in Novi, Michigan, and has been the subject of countless features in newspapers, magazines, and network television from coast to coast. Shirley Muldowney's *Tales from the Track* is an unabashed collection of stories, anecdotes, and opinions in her own unvarnished style of storytelling, laced with her straightforward, take-no-prisoners approach. She has spent her entire lifetime telling it like it is, standing up to the establishment, and refusing to do anything other than in her own way. Politically correct? Hardly. Readers are encouraged to strap themselves in when she shares her manytales. It's the whole truth and nothing but the truth according to the legendary Shirley Muldowney.

Following the War of the Pacific (1879-1883), Chile and Peru

signed the Treaty of Ancón (1884) that, in part, dealt with settling a territorial dispute over the provinces of Tacna and Arica along the countries' new common border. The treaty allowed Chile to administer the two provinces for a period of ten years, after which a plebiscite would allow the region's inhabitants to determine their own nationality. At the end of the prearranged decade, however, the Chilean and the Peruvian governments had failed to conduct the vote that would determine the fate of the people. Over a quarter of a century later, and after attempts by the U.S. government to mediate the dispute, the two countries in 1929 decided simply to divide the area, with Arica becoming a part of Chile and Peru reincorporating Tacna. Against the backdrop of this contested frontier, William Skuban explores the processes of nationalism and national identity formation in the half century that followed the War of the Pacific. He first considers the national projects of Peru and Chile in the disputed territories and then moves on to how these efforts were received among the diverse social strata of the region. Skuban's study highlights the fabricated nature of national identity in what became one of the most contentious frontier situations in South American history.

As the magazine of the Texas Exes, The Alcalde has united alumni and friends of The University of Texas at Austin for nearly 100 years. The Alcalde serves as an intellectual crossroads where UT's luminaries - artists, engineers, executives, musicians, attorneys, journalists, lawmakers, and professors among them - meet bimonthly to exchange ideas. Its pages also offer a place for Texas Exes to swap stories and share memories of Austin and their alma mater. The magazine's unique name is Spanish for

"mayor" or "chief magistrate"; the nickname of the governor who signed UT into existence was "The Old Alcalde."

Jack Arute's Tales from the Indy 500 Wesleyan

The first organized, sanctioned American stock car race took place in 1908 on a road course around Briarcliff, New York--staged by one of America's early speed mavens, William K. Vanderbilt, Jr. A veteran of the early Ormond-Daytona Beach speed trials, Vanderbilt brought the Grand Prize races to Savannah, Georgia, the same year. What began as a rich man's sport eventually became the working man's sport, finding a home in the South with the infusion of moonshiners and their souped-up cars. Based in large part on statements of drivers, car owners and others garnered from archived newspaper articles, this history details the development of stock car racing into a megasport, chronicling each season through 1974. It examines the National Association for Stock Car Automobile Racing's 1948 incorporation documents and how they differ from the

agreements adopted at NASCAR's organization meeting two months earlier. The meeting's participants soon realized that their sport was actually owned by William H.G. "Bill" France, and its consequential growth turned his family into billionaires. The book traces the transition from dirt to asphalt to superspeedways, the painfully slow advance of safety measures and the shadowy economics of the sport.
