This book attempts to search for answers to some of the fundamental questions about life on earth that humanity has been asking for thousands of years. The first question is, "Why I am on earth?" Rooted deeply within the human psyche, this question often arises with a belief that there must be some meaning and purpose in life and that human life is more than just being born, getting an education, having jobs, raising families, and eventually dying. The second question is, "Who am I?" When we say "I do this" or "I do that," what is that "I" we are referring to? What actually is meant by the word "I"? Does it mean the body we have that we see walking, seeing, doing things, or thinking? Or it is something larger than the physical body? When we say "This is good" or "That is good," what is the standard by which we determine that something is good? For example, what you consider to be good in any situation or activity may not be perceived as such by others. Is there any standard that can be generally accepted by humanity despite the difference in people's background and belief systems?

History Of Ancient & Medieval India Motilal Banarsidass
During earthquakes death and destruction takes place on a vast scale and no providential care is taken by Mechanical Nature. Matter is eternal and the mechanistic Nature is without consciousness and it was created by few laws of matter. A providential care is taken by Baby (child Nature with consciousness) by helping all living beings in adjusting the conditions of the environment The Baby Nature came into existence a long time after the Big Bang. Brahman and Atman of a criminal can not identical. Due to the presence of evil Brahman and world are not identical. The character of a man is not created by 3 Gunas. The character of every man is created by the genes for truthfulness, genes for altruism, etc. Sattva Guna (superego), Rajas and Tamas Gunas (Id) did not exist before the evolution of man from apes. Sita told the demons that she was not knowing Hanuman. Sita had given to Hanuman her jewels and had received from Hanuman a finger ring of Rama. Sita uttered a lie. Hence, Sita was not divine. There is no need of vanaprastha and sanyasa ashrama. Upanishads say: "Thou art Brahman, Thou art that". The can be interpreted as: "Thou art superego, thou art Id, thou art satan and thou art wolf". Buddha's doctrine of anatman is correct. The six systems of Indian philosophy can be replaced by a simple system. Existence is prior to essence. A good soul is created by doing and thinking good. Good souls are absorbed into the Supreme Spirit. This book contains a solution for creating a Hindu and muslim unity. At red light we do not make use of free will and we copy the movements of other people. Brahman is a destroyer of maya. Karma is not a mechanical, invisible, unconscious, impersonal principle or moral force or power. The distinction between right and wrong can be created only by a conscious being. Nature is amoral, blind, evil and ruler of physical realm. Nature is not concerned with justice and karma. Nature and Newton's law of action and reaction are concerned with physical causes and physical effects. Birth, death, sex, caste, health and other physical circumstances are not created by Karma. Man is the maker of his own fate. God is fully concerned with justice and Karma. God's Karmic causality is a moral or noumenal causality. The causality of Nature is a physical causality. God punishes sinners by creating pangs of conscience and by making use of the hands of believers. God has no control over Nature. God can not give punishments by sending earthquakes, malaria, poverty, death and other natural calamities. Cancer, rain and other physical things have no link with prayer, rituals etc. God is the ruler of the spiritual realm and Nature is the ruler of temporal realm. A belief in the previous life or rebirth is false. A good man is like a flower of rose and he dies forever and a pleasant aroma is left behind by him in air. Due to false belief in karma innocent people have to reap what is sown by the evil doers. Long live martyr Nathu Ram Godse.

Ancient India SAGE Publishing India

The book presents a bird's eye view of the glorious heritage of India. Since time immemorial, India has proclaimed that man needs both scientific and spiritual knowledge to enjoy material prosperity and happiness. Unfortunately, this advice has been forgotten by the people of this country. They have been under foreign rule for centuries, and blindly followed their lifestyle and approach to education. This has led to the current scenario where

this great country is on the verge of complete destruction. The time has come for all of us to unite and learn ancient Indian wisdom which is necessary to create a healthy, prosperous and peaceful society. And consequently, restore India's glory and make it the moral and spiritual leader of the world. The book points to the scientific basis of this wisdom. It is sincerely hoped that it will help awaken the collective conscience of Indian people. *The True History and the Religion of India* Rahul Dudhane

Faith & Philosophy of Hinduism Sai Towers Publishing
The Puranas work as guiding inspiration in Hindu life. The stories of Puranas reflect the composite human nature of all times. The lessons of the Puranas are captivating, entertaining and widely followed by the Hindus, so much that it can undisputedly be said that the Puranas are the beacons of Indian ethos. Today, when the old values seem outdated, the stories of the Puranas bring forth the lessons as much the graceful as were in old times. There are 18 Puranas, which tell the tales of vice and virtue, good and evil, religion and irreligion and so on. These are relevant even today. Koorma Purana is one of them. Its text is presented in form of a tortoise's expression of stories and morals out of them. The word 'Tortoise' means 'Koorma' in Sanskrit. According to Hindu scriptures, the Koorma was the metamorphosed form of Lord Vishnu, in his second incarnation. The morals derived from the stories spoken by the Koorma, were actually emanating from metamorphosed Lord Vishnu. The Koorma discusses the Shaiva and Shaakta theories.

He has a gift for communicating complex ideas in a way that makes them clear and easy to grasp, but does so without losing sight of their inherent complexity." Jeffery D. Christ In Ancient Indian Thought Partridge Publishing
Human history has produced hundreds of epic writers, poets, novelists, and historians to narrate what's occurred in the past 5,000 years of human beings' cultural history. There's abundant information about social habits, religious beliefs, and political and economic institutions established and perfected by the human species through the ages, from the beginning days of human civilization to today. In *The New World Order*, author Vikram S. Bobbili analyzes this history, concluding that differences among human races are superficial, transitory in nature, and subject to continuous change. He asserts the oneness of human populations by examining the origin of the human species and his journey from the nuclear zone in Africa 1.5 million year ago; his ordeals through different ages (prehistoric, the ancient, the medieval, and the modern times); and his onward journey in the conquest of space. Bobbili also explores the challenges humans have faced in the past, the possible changes and problems he's apt to address in the future, and the measures he must institute to ensure his continuous survival. The *New World Order* emphasizes the need to invent new faiths and adopt new policies to see a near homogeneity in political, economic, religious, and social institutions for achieving the ultimate goal—establishment of great human society.

The author, a historian of repute, confronts important issues of Indian history in this classic work. He raises such questions as "Was there an Aryan Invasion of India in the past?", "Is the caste system a bane or a boon?", "Did Indian women enjoy equal rights in ancient times?", "Was Democracy an alien concept to Vedic Indians?", "Why Buddhism became extinct in the country of its origin?", "What is India's lasting contribution to the field of Science, Mathematics, Astronomy, Medicine, Chemistry, Metallurgy, etc.?", "Was Indian Culture greatly impacted by foreign religions?", "How did India influence its neighbouring Eastern and Western countries?", "Is Sanskrit only an off-shoot of the Indo-European Languages Group?", "What was the scale of the social, economic and political implosion detonated by two centuries of British Colonial Rule?". The author has answered the above vexing questions based on an intensive study of Archaeology, Epigraphy, Numismatics, original records in different languages and the travelogues of foreign visitors. Understanding Hinduism today requires an understanding of how it is practised in the contemporary world. Stephen Jacob's new introduction tackles these central issues, beginning with case studies of the grassroots practice of Hinduism in India and in diaspora communities. He covers issues of singular importance in the modern study of Hinduism, including the importance and role of mass media to this essentially orally transmitted religion. Other major areas covered include the concept of Hindu dharma, particularly in relation to caste, gender and Hindu nationalism, key and often controversial concepts in Hinduism.

Lord Krishna is hailed as a God. In fact, he was deified during his own life time. His deeds are an integral part of Indian folklore. His crowning glory is the Bhagavad Gita. It is considered as an eternal source of wisdom and spiritual guidance. Yet, his story is riddled with controversies and logical inconsistencies. As a result, there is a progressive decline in the faith accorded to Lord Krishna and his deeds. Today, Lord Krishna is more of a myth and his teachings are believed to be beyond the ken of ordinary mortals. The author opines that this is the result of projecting Lord Krishna as a reincarnate of the supreme being. We tend to obey his diktats rather than try and emulate him. This work is a scientific examination of the life of Lord Krishna as an evolution from a gifted child to what confirms to the attributes of the supreme being. It examines the societal framework under which this evolution was made both possible and imperative. Such an approach shifts the focus from the end-result to the process of arriving at the result. Lord Krishna is the end-result of an intellectually challenging societal process that was fuelled by a galaxy of eminent individuals. A rigorous practice of Raja Yoga and Mantra Yoga could have been the catalyst. The collective failures of intellect and the corrective measures resorted to eventually shaped the mind of an individual called Lord Krishna. The author hopes that a study of this kind would lead to the restructuring of societal frameworks leading to the production of better minds.

This Book is a revelation of facts not widely known. A revelation that biblical truths are available in the ancient Indian scriptures. The author, a Sanskrit scholar offers conclusive evidence of the presence of Christian vision in the Vedas and Upanishads. It is the culmination of research and study spread over many years and addressed to seekers of truth, irrespective of faith and creed, everywhere. This book holds no particular brief, except to proclaim that truth is one, though expressed differently. That however requires differentiating the substance from the poetic imagination of language and it is in this context that the author provides totally fresh interpretations and insight. That is the charm of the book.
