## MALLORY JANIAH

*Travels* Elefanti bestseller

The blockbuster author of Jurassic Park “provides plenty of misdirection to keep you on your toes” in his very first novel (Publishers Weekly). To rob the finest resort in fascist Spain, three Americans need to blend in among the Mediterranean elite. And to do so, they will each need a gorgeous girl as cover. They find a depraved millionaire, a drug-addled nymphomaniac, and an assistant hotel manager who enjoys mingling with her handsome guests after hours. The would-be thieves have used an IBM supercomputer to plan the perfect heist. Their crime has been calculated to the last detail, with every possible contingency planned for, save one: the women. The Hotel Reina is crawling with femmes fatales, and these crooks will be lucky to escape with the shirts on their backs. This ebook features an illustrated biography of Michael Crichton including rare images from the author’s estate.

*Pirate Latitudes* Open Road Media

They called it “minor surgery,” but Nancy Greenly, Sean Berman and a dozen others--all admitted to Boston Memorial Hospital for routine procedures--were victims of the same inexplicable, hideous tragedy on the operating table. They never woke up. Susan Wheeler is a third-year medical student working as a trainee at Boston Memorial Hospital. Two patients during her residency mysteriously go into comas immediately after their operations due to complications from anesthesia. Susan begins to investigate the causes behind both of these alarming comas and discovers the oxygen line in Operating Room 8 has been tampered with to induce carbon monoxide poisoning. Then Susan discovers the evil nature of the Jefferson Institute, an intensive care facility where patients are suspended from the ceiling and kept alive until they can be harvested for healthy organs. Is she a participant in--or a victim of--a large-scale black market dealing in human organs?

NEW YORK TIMES EDITORS’ CHOICE • A “lyrical” (Chicago Tribune) final work of nonfiction from the National Book Award-winning author of Arctic Dreams and Horizon, a literary icon whose writing, fieldwork, and mentorship inspired generations of writers and activists. “Mesmerizing . . . a master observer . . . whose insight and moral clarity have earned comparisons to Henry David Thoreau.”—The Wall Street Journal ONE OF THE MOST ANTICIPATED BOOKS OF 2022—Lit Hub, BookPage An ardent steward of the land, fearless traveler, and unrivaled observer of nature and culture, Barry Lopez died after a long illness on Christmas Day 2020. The previous summer, a wildfire had consumed much of what was dear to him in his home place and the community around it—a tragic reminder of the climate change of which he’d long warned. At once a cri de coeur and a memoir of both pain and wonder, this remarkable collection of essays adds indelibly to Lopez’s legacy, and includes previously unpublished works, some written in the months before his death. They unspool memories both personal and political, among them tender, sometimes painful stories of his childhood in New York City and California, reports from expeditions to study animals and sea life, recollections of travels to Antarctica and other extraordinary places on earth, and meditations on finding oneself amid vast, dramatic landscapes. He reflects on those who taught him, including Indigenous elders and scientific mentors who sharpened his eye for the natural world. We witness

poignant returns from his travels to the sanctuary of his Oregon backyard, adjacent to the McKenzie River. And in prose of searing candor, he reckons with the cycle of life, including his own, and—as he has done throughout his career—with the dangers the earth and its people are facing. With an introduction by Rebecca Solnit that speaks to Lopez's keen attention to the world, including its spiritual dimensions, *Embrace Fearlessly* the Burning World opens our minds and souls to the importance of being wholly present for the beauty and complexity of life. "This posthumously published collection of essays by nature writer Barry Lopez reveals an exceptional life and mind . . . While certainly a testament to his legacy and an ephemeral reprieve from his death in 2020, this book is more than a memorial: it offers a clear-eyed praxis of hope in what Lopez calls this 'Era of Emergencies.'"—Scientific American

*Raptor Red* Harper Collins

*Calculating God* is the new near-future SF thriller from the popular and award-winning Robert J. Sawyer. An alien shuttle craft lands outside the Royal Ontario Museum in Toronto. A six-legged, two-armed alien emerges, who says, in perfect English, "Take me to a paleontologist." It seems that Earth, and the alien's home planet, and the home planet of another alien species traveling on the alien mother ship, all experienced the same five cataclysmic events at about the same time (one example of these "cataclysmic events" would be the meteor that wiped out the dinosaurs). Both alien races believe this proves the existence of God: i.e. he's obviously been playing with the evolution of life on each of these planets. From this provocative launch point, Sawyer tells a fast-paced, and morally and intellectually challenging, SF story that just grows larger and larger in scope. The evidence of God's universal existence is not universally well received on Earth, nor even immediately believed. And it reveals nothing of God's nature. In fact, it poses more questions than it answers. When a supernova explodes out in the galaxy but close enough to wipe out life on all three home-worlds, the big question is, Will God intervene or is this the sixth cataclysm? *Calculating God* is SF on the grand scale. *Calculating God* is a 2001 Hugo Award Nominee for Best Novel. At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.
