RANDALL SANIYA

Greatness Univ of

California Press
The essays in this
book, like all other
texts, have been
written in a historical
context that shapes

both the themes and the prose styles of the authors. A close reading of these texts would in fact lead to many overlapping contexts of politics, social hierarchies, modern communications, and international relations, but we want to focus briefly on two contextual influences that carry the most obvious connections to this book: the wide-ranging public debate about the proper curriculum for American schools and universities, and the more specific debate among historians about new trends in historical scholarship.

Choose Greatness

Moody Publishers
From the simple assertion that "words matter" in the study of visual art, this

comprehensive but eminently readable volume gathers an extraordinary selection of words—painters and sculptors writing in their diaries, critics responding to a sensational exhibition, groups of artists issuing stylistic manifestos, and poets reflecting on particular works of art. Along with a broad array of canonical texts, Sarah Burns and John Davis have assembled an astonishing variety of unknown, little known, or undervalued documents to convey the story of American art through the many voices of its contemporary practitioners, consumers, and commentators. American Art to 1900 highlights such critically important

themes as women artists, African American representation and expression, regional and itinerant artists, Native Americans and the frontier, popular culture and vernacular imagery, institutional history, and more. With its hundreds of explanatory headnotes providing essential context and guidance to readers, this book reveals the documentary riches of American art and its many intersecting histories in unprecedented breadth, depth, and detail.

American Journal of Pharmacy DigiCat Magnanimity is a virtue that has led many lives. Foregrounded early on by Plato as a philosophical virtue par excellence, it became

one of the crown jewels in Aristotle's account of human excellence and was accorded equally salient place by other ancient thinkers. It is one of the most distinctive elements of the ancient tradition to filter into the medieval Islamic and Christian worlds. It sparked important intellectual engagements and went on to carve deep tracks through several of the later philosophies to inherit from this tradition. Under changing names and reworked forms, it would continue to breathe in the thought of Descartes and Hume, Kant, and Nietzsche. Its many lives have been joined by important continuities, yet they have also been fragmented by

discontinuities —
 discontinuities
 reflecting larger shifts
 in ethical perspectives
 and competing
 answers to questions
 about the nature of the
 good life, the moral
 nature of human
 beings, and their
 relationship to the
 social and natural
 world they inhabit.
 They have also been
 punctuated by
 moments of intense
 controversy in which
 the vision of human
 greatness has itself
 been called into doubt.
 The aim of this volume
 is to provide an insight
 into the complex
 trajectory of a virtue
 whose glitter has at
 times been as dazzling
 as it has been divisive.
 By exploring the many
 lives it has lived, we
 will be in a better
 position to evaluate
 whether this is a virtue

we still want to make
 central to our own
 ethical lives, and why.

 Masterful, ambitious,
 and groundbreaking,
 this is a major new
 history of our country
 by one of our most
 respected thinkers and
 historians -- a book
 every Canadian should
 own. From the
 acclaimed biographer
 and historian Conrad
 Black comes the
 definitive history of
 Canada -- a revealing,
 groundbreaking
 account of the people
 and events that
 shaped a nation.
 Spanning 874 to 2014,
 and beginning from
 Canada's first
 inhabitants and the
 early explorers, this
 masterful history

challenges our perception of our history and Canada's role in the world. From Champlain to Carleton, Baldwin and Lafontaine, to MacDonald, Laurier, and King, Canada's role in peace and war, to Quebec's quest for autonomy, Black takes on sweeping themes and vividly recounts the story of Canada's development from colony to dominion to country. Black persuasively reveals that while many would argue that Canada was perhaps never predestined for greatness, the opposite is in fact true: the emergence of a magnificent country, against all odds, was a remarkable achievement. Brilliantly conceived, this major new reexamination of

our country's history is a riveting tour de force by one of the best writers writing today. *The Teachers' Institute* Macmillan
This path-breaking work offers the first comprehensive examination of the important personalities and events that have influenced the course of history. It discusses whether people who go down in history are different from the rest of us and whether specific personality traits predispose certain people to become world leaders, movie stars, scientific geniuses, and athletes. It sheds light on the depth of potential in everyone, yielding important clues as to how we can take advantage of our own individual personality traits. Probing the lives

of a range of important figures, the book explores the full range of phenomena associated with greatness, scrutinizing the significance of everything from genetic inheritance, intuition, aesthetic appreciation, and birth order, to formal education, sexual orientation, aging, IQ, and alcohol and drug abuse. This book will be of interest to anyone interested in the people and events that have helped shape the world, including mental health professionals and scholars studying psychological topics in the larger context of science, art, politics, and history. The book also serves as an engaging text for undergraduate psychology courses.

A Dictionary of Christ and the Gospels: Aaron-Knowledge BoD -

Books on Demand
 Before they acquired Babe Ruth or won a single championship, the New York Yankees (ne Highlanders) inspired the strongest of feelings in baseball circles. Stars such as Jack Chesbro, Hal Chase, and Brooklynner Willie Keeler had loud followers, and the team made loyal fans of those who disliked the crosstown Giants or Dodgers. Even Ban Johnson prized the franchise, which gave his upstart American League a foothold in the nation's most populous city. Baltimoreans, on the other hand, nurtured an animus toward the team, which only a few years earlier had been

called the Orioles. And former Orioles manager John McGraw hatched a plan, along with Giants owner Andrew Freedman, to sabotage the new club. This heavily illustrated volume combines a fully documented history of the deadball-era Yankees with more than 190 photographs of the people, places and events that figured prominently in the story.

'Nick Bryant is brilliant.

He has a way of
showing you what
you've been missing
from the whole story
whilst never leaving
you feeling stupid.'

– Emily Maitlis 'Bryant is
a genuine rarity, a Brit
who understands

America' – Washington
Post In When America
Stopped Being Great,

veteran reporter and
BBC New York

correspondent Nick
Bryant reveals how

America's decline
paved the way for

Donald Trump's rise,
sowing division and
leaving the country
vulnerable to its
greatest challenge of
the modern era. Deftly
sifting through almost
four decades of
American history, from
post-Cold War
optimism, through the
scandal-wracked
nineties and into the
new millennium,
Bryant unpacks the
mistakes of past
administrations, from
Ronald Reagan's
'celebrity presidency'
to Barack Obama's
failure to adequately
address income and
racial inequality. He
explains how the
historical clues, unseen
by many (including the
media) paved the way
for an outsider to take
power and a country to
slide towards disaster.
As Bryant writes,
'rather than being an

aberration, Trump's presidency marked the culmination of so much of what had been going wrong in the United States for decades – economically, racially, politically, culturally, technologically and constitutionally.' A personal elegy for an America lost, unafraid to criticise actors on both sides of the political divide, *When America Stopped Being Great* takes the long view, combining engaging storytelling with recent history to show how the country moved from the optimism of Reagan's 'Morning in America' to the darkness of Trump's 'American Carnage'. It concludes with some of the most dramatic events in recent memory, in an America torn apart by a bitterly polarised

election, racial division, the national catastrophe of the coronavirus and the threat to US democracy evidenced by the storming of Capitol Hill.

Tap into the powerful techniques of professional actors and great communicators
The Pin Drop Principle is a step-by-step master class for anyone wishing to become a more confident and credible communicator. Lewis and Mills believe all business professionals ought to deliver their message in such an engaging way that one could literally hear a pin drop when they speak. The secret to doing so comes from an unusual world: professional acting. By

activating "objective" and "intention"—the main tools of actors (and great communicators)—business people can give their messages meaning and relevance, so the recipients walk away knowing why the message is important and what is in it for them. Empowers business professionals with performance-based delivery techniques—from storytelling to vocal dynamics—essential to becoming a great communicator Written for anyone wishing to engage listeners, establish instant credibility, influence key decision makers, and create a positive lasting impression Based on the Pinnacle Method, one of the most popular and

groundbreaking communication skills training methods The Pin Drop Principle is an accessible resource for anyone who routinely needs to present ideas to large or small groups, convey feedback effectively, conduct difficult conversations, and persuade others.

When America Stopped Being Great

WW Norton

Are mass violence and catastrophes the only forces that can seriously decrease economic inequality? To judge by thousands of years of history, the answer is yes. Tracing the global history of inequality from the Stone Age to today, Walter Scheidel shows that it never dies peacefully. The Great Leveler is the first book to chart the crucial role

of violent shocks in reducing inequality over the full sweep of human history around the world. The “Four Horsemen” of leveling—mass-mobilization warfare, transformative revolutions, state collapse, and catastrophic plagues—have repeatedly destroyed the fortunes of the rich. Today, the violence that reduced inequality in the past seems to have diminished, and that is a good thing. But it casts serious doubt on the prospects for a more equal future. An essential contribution to the debate about inequality, *The Great Leveler* provides important new insights about why inequality is so persistent—and why it is unlikely to decline

anytime soon. *Great Men and Movements in Israel* McClelland & Stewart If you are into construction project management, this book is certainly for you. This is creative non-fiction. Travel through times and spaces. Meet with historic world leaders. Work alongside the world’s greatest master-builders. Live the sights and sounds of ancient cities and construction sites. Discover the stories behind the greatest landmark buildings shaping the world skyline. Feel the genesis of great creatures and the moments they age or die out. Witness inaugurations celebrated by the entire universe. Hear the buildings breathe,

laugh, cry, and at times suicide. Shed a tear for the martyrs of construction greatness. Moreover, if you are into construction project management, this book is certainly for you. It includes a bulk of Agile, PMBOK® Guide, and Design-Build project management lessons learned extracted right from the stories of a host of the greatest projects in human history. Enjoy!

Literary Digest

Princeton University Press

Every great sports coach is a life coach. This book identifies 168 outstanding coaches who have much to teach us about optimizing our performance, our character, and our lives. Coaches build winning teams and

enable each athlete they mentor, guide, cajole, and nurture to achieve top performance. More than this, every great sports coach is first and last a life coach. Sportswriter Justin Spizman identifies and profiles 168 of the greatest coaches and managers of all time. They have much to teach us about optimizing our performance, our character, and our lives. Coach: The Greatest Teachers in Sports and Their Lessons for Us All profiles coaches in every significant sport, from football, basketball, baseball, and hockey to gymnastics, skating, rowing, rugby, soccer, and more. From field to court, diamond, rink, and pitch, the big

leagues to the Olympics, college, and high school, Coach delivers the most teachable moments and methods—for play, for competition, and for life. Rich in quotations, each profile ends with lessons for top performance on and off the field, in and beyond the arena. Justin Spizman tracks all the relevant stats—for every sport keeps score—but he seeks first and last to disclose the mind, the heart, and the force of character that drive each of the indispensable men and women behind the world's most envied and admired athletes. His profiles range from the likes of Cardinals manager Tony La Russa (already an MLB legend), to Aimee Boorman and Cecile

Canqueteau-Landi (who both coached gymnastics phenom Simone Biles), Bill Belichick (the take-no-prisoners field general of the New England Patriots), Pat Summitt (who racked up 1,098 wins as coach of the University of Tennessee Lady Vols basketball team from 1974 to 2012), Marián Vajda (the coach behind tennis titan Novak Djokovic), and David Leadbetter (golf guru to champions Kathy Baker, Nick Faldo, and Michelle Wie).

The Flaming Sword Guilford Press Why do some teens thrive as adults while others struggle? What makes the difference? Gary Chapman, the New York Times #1 bestselling author of *The 5 Love Languages*®, and

Clarence Shuler met when Clarence was still a teen. Gary mentored Clarence and helped him make wise decisions during his tumultuous teen years. Decades later, the two are still close friends and both lead powerful ministries that help people all around the world live better, more godly lives. Clarence saw the importance of someone coming alongside when he needed to make difficult but wise decisions. That's why Gary and Clarence are teaming up to give this gift to other young men. In *Choose Greatness*, they look at 11 important choices every young man faces, and talk through how he can choose wisely and thereby choose greatness. Full of rich wisdom, down-

to-earth writing, and compassionate insight, this book is perfect for a teen to read on their own or (even better) with a mentoring adult. Help the teens in your life choose greatness today.

"We are all worms. But I do believe I am a glow-worm." --Churchill
Winston Churchill's inspiring leadership in the Second World War once made him above criticism. In recent years his record has come under attack from revisionists. In *Churchill: A Study in Greatness* one of Britain's most distinguished

historians rebuts these charges and makes sense of this extraordinary man and his long controversial, colourful, contradictory and heroic career.

Geoffrey Best brings out both his strengths and his weaknesses, looking past the many received versions of Churchill in a biography that balances the private and the public man and offers a clear insight into Churchill's greatness. "We are all worms. But I do believe I am a glow-worm." --
