He introduces linguistic theory in order to throw light on every aspect of the language, providing students with a linguistically informed and accessible approach to the description of the language. Updated guides to further reading are given at the end of each chapter, and the book's usefulness for students and teachers has been enhanced by the addition of exercises and discussion questions. At a moment of great discovery, one Big Idea can change the world... Pythagoras was arguably the first 'genius' of Western culture, establishing a blend of high intellect and high lunacy, both of which have become recurrent features of this scholarly heritage. Most memorably, he created the Pythagorean Theorem, and established the concept of proofs in mathematics. Less well known was the religion he founded which forbade his disciples from eating beans or stepping over fallen poles! *Pythagoras & His Theorem* tells the remarkable story of the life of this poorly understood genius and the transformation his work brought about in mathematics. Pythagoras' Big Idea is presented in an accessible and enthralling way, providing an explanation of the meaning of his work, its historical and scientific context, and significance for the world in which we live. The Big Idea series is a fascinating look at the greatest advances in our scientific history, and at the men and women who made these fundamental breakthroughs.

The much heralded "completion" of the human genome project in the year 2000 raises urgent questions: Do we now have a map of who we are? How will we control the uses of the potentially healing but also likely destructive and highly marketable information genetics brings us? Using her own life as well as her research, Barbara Katz Rothman presents an impassioned defense for the

theory that humans are not "ready made from the factory", as one recent popular book on genetics put it, but social beings who grow, mature, and learn who they are.

Shakespeare's absolute pre-eminence is simply unparalleled. His plays pack theatres and provide Hollywood with block-buster scripts; his works inspire mountains of scholarship and criticism every year. He has given us many of the very words we speak, and even some of the thoughts we think. Nick Groom and Piero explore how Shakespeare became so famous and influential, and why he is still widely considered the greatest writer ever. They investigate how the Bard has been worshiped at different times and in different places, used and abused to cultural and political ends, and the roots of intense controversies which have surrounded his work. Much more than a biography or a guide to his plays and sonnets, *Introducing Shakespeare* is a tour through the world of Will and concludes that even after centuries, Shakespeare remains the battlefield on which our very comprehension of humanity is being fought out.

*The Anabaptist Vision*, given as a presidential address before the American Society of Church History in 1943, has become a classic essay. In it, Harold S. Bender defines the spirit and purposes of the original Anabaptists. Three major points of emphasis are: the transformation of the entire way of life of the individual to the teachings and example of Christ, voluntary church membership based upon conversion and commitment to holy living, and Christian love and nonresistance applied to all human relationships.

A huge bestseller in Germany for over a year, *My Father's Country* offers extraordinarily moving and riveting insight into the experience of being German in the last century. On August 26, 1944, Hans Georg Klamroth, officer in the German army and member of the SS, was executed for high treason for his participation in the July 1944 plot to assassinate Hitler. *My Father's Country* is the extraordinary work of Klamroth's daughter, Wibke, born only six years before her father's death. Decades later, Bruhns was watching a TV documentary about the events of July 1944 when images of her father in the court room suddenly appeared on screen. "I stare at this man with the empty face. I don't know him. But I can see myself in him — his eyes are my eyes; I know I resemble him. I know I wouldn't be here without him. And what do I know about him? Nothing at all." Based on an extensive collection of family letters, private diaries, photographs and even menus, *My Father's Country* traces Wibke Bruhns' father's, and more widely, her well-to-do merchant family's, life in the Germany of the late nineteenth and early twentieth centuries. With it, Bruhns not only brings to life the nuances of this world — its culture and its assumptions, politics and beliefs — but also comes to know, finally, the mysterious father she barely remembers.

It all began with a line of Persian poetry . . . Anna and Nouri, both studying in Chicago, fall in love despite their very different backgrounds. Anna, who has never been close to her parents, is more than happy to return with Nouri to his native Iran, to be embraced by his wealthy family. Beginning their married life together in 1978, their world is abruptly turned upside down by the overthrow of the Shah, and the rise of the Islamic Republic. Under the Ayatollah Khomeini and the Republican Guard, life becomes increasingly restricted and Anna must learn to exist in a transformed world, where none of the familiar Western rules apply. Random arrests and torture become the norm, women are required to wear hijab, and Anna discovers that she is no longer free to leave the country. As events reach a fevered pitch, Anna realizes that nothing is as she thought, and no one can be trusted not even her husband.

More than any of their contemporaries, Swiss architects Jacques Herzog and Pierre de Meuron are challenging the boundaries between architecture and art. *Natural History* explores that challenge, examining how the work of this formidable pair has drawn upon the art of both past and present, and brought architecture into dialogue with the art of our time. Echoing an encyclopedia, this publication reflects the natural history museum structure of the exhibition which it accompanies, organized by the Canadian Centre for Architecture. Models and projects by Herzog & de Meuron, as well as by other artists, are structured around six thematic portfolios that suggest an evolutionary history of the architects' work: Appropriation & Reconstruction, Transformation & Alienation, Stacking & Compression, Imprints & Moulds, Interlocking Spaces, and Beauty & Atmosphere. Each section is introduced with a statement from Herzog, and more than 20 artists, scholars, and architects have contributed essays, including Carrie Asman, Georges Didi-Huberman, Kurt W. Forster, Boris Groys, Ulrike Meyer Stump, Peggy Phelan, Thomas Ruff, Rebecca Schneider, Adolf Max Vogt, and Jeff Wall.

"A riveting adventure for the soul . . . just the kind of evocative historical fiction I love."—Sara Gruen, author of *At the Water's Edge* and *Water for Elephants* An epic, inspiring novel about one woman's survival in the hardscrabble Italian countryside and her determination to protect her family throughout the Second World War—by any means possible Maria Vittoria is twenty-five when her father brings home the man who will become her husband. It is 1923 in the austere Italian mountain village where her family has lived for generations, and the man she sees is tall and handsome and has survived the First World War without any noticeable scars. Taking just the linens she has sewn that make up her dowry and a statue of the Madonna that sits by her bedside, Maria leaves the only life she has ever known to begin a family. But her future will not be what she imagines. The Madonna of the Mountains follows Maria over the next three decades, as she moves to the town where she and her husband become shopkeepers, through the birth of their five children, through the hardships and cruelties of the National Fascist Party Rule and the Second World War. Struggling with the cost of survival at a time when food is scarce and allegiances are questioned, Maria trusts no one and fears everyone—her Fascist cousin, the madwoman from her childhood, her watchful neighbors, the Nazis and the Partisans who show up hungry at her door. As Maria's children grow up and her marriage endures its own hardships, she must hold her family together with resilience, love, and faith, until she makes a fateful decision that will change the course of all their lives. A sweeping saga about womanhood, loyalty, war, religion, family, food, motherhood, and marriage, *The Madonna of the Mountains* is a poignant look at the span of one woman's life as the rules change and her world becomes unrecognizable. In depicting the great cost of war and the ineluctable power of time on a life, Elise Valmorbida has created an unforgettable portrait of a woman navigating both the unforeseen and the inevitable. Advance praise for *Madonna of the Mountains* "The moral and ethical questions raised propel the story beyond the particulars into the universal."—Kirkus Reviews "It is a bewitching but entirely unsentimental portrait of one woman's attempt to keep her family safe in turbulent times."—The Times (UK), Book of the Month "A solid choice for readers who appreciate layered family sagas."—Library Journal

**Introducing Shakespeare** Islam International Publications Limited

In a world plagued with intolerance for cultural, racial and religious differences, *A Message of Peace* serves as a panacea to the ills of the society. Prophetic in foresight and universal in scope, this book lays out a path to the peaceful existence of all humans based on the central theme of worshipping the One God. It is not surprising therefore that *A Message of Peace* forms the last work of a man who was destined to lay the foundation for the establishment of peace in this day and age and whose advent was prophesied in all major religions of the world-the Promised Messiah and Reformer of the Latter Days. "My countrymen!" writes the Promised Messiah, "A religion which does not inculcate universal compassion is no religion at all. Similarly a human being without the faculty of compassion is no human at all."

The Pentagon's *New Map* was one of the most talked-about books of the year - a fundamental reexamination of war and peace in the post-9/11 world that provided a compelling vision of the future. Now, senior advisor and military analyst Thomas P.M. Barnett explores our possible long- and short-term relations with such nations and regions as Iran, Iraq, and the Middle East, China and North Korea, Latin America and Africa, while outlining the strategies to pursue, the entities to create, and the pitfalls to overcome. If his first book was "a compelling framework for confronting twenty-first century problems" (*Business Week*), Barnett's new book is something more - a powerful road map through a chaotic and uncertain world to "a future worth creating."
