This book situates the picturebook genre within the widespread international phenomenon of crossover literature, examining an international corpus of picturebooks — including artists' books, wordless picturebooks, and celebrity picturebooks — that appeal to readers of all ages. Focusing on contemporary picturebooks, Sandra Beckett shows that the picturebook has traditionally been seen as a children's genre, but in the eyes of many authors, illustrators, and publishers, it is a narrative form that can address any and all age groups. Innovative graphics and formats as well as the creative, often complex dialogue between text and image provide multiple levels of meaning and invite readers of all ages to consider texts that are primarily marketed as children's books. The interplay of text and image that distinguishes the picturebook from other forms of fiction and makes it a unique art form also makes it the ultimate crossover genre. Crossover picturebooks are often very complex texts that are challenging for adults as well as children. Many are characterized by difficult "adult" themes, genre blending, metafictional discourse, intertextuality, sophisticated graphics, and complex text-image interplay. Exciting experiments with new formats and techniques, as well as novel interactions with new media and technologies have made the picturebook one of the most vibrant and innovative contemporary literary genres, one that seems to know no boundaries. Crossover Picturebooks is a valuable addition to the study of a genre that is gaining increasing recognition and appreciation, and contributes significantly to the field of children's literature as a whole.

"Gli Animali MIMANO l'Alfabetiere. Un Alfabeto strabiliante!" In questo Alfabetiere, adatto dai 2 anni in su, c'è qualcosa di speciale! Ma che cosa? Tanti divertenti Animali MIMANO una LETTERA dell'alfabeto in modo da AIUTARE a RICORDARE la FORMA della lettera MAIUSCOLA dell'alfabeto! Ai bambini, si sa, piacciono gli animali: imitano i loro versi o le loro buffe espressioni, diventando un mezzo di comunicazione già da quando iniziano a pronunciare le prime parole. Circa a partire dai 2 - 3 anni di età, i bambini incominciano a riconoscere gli animali ed a imparare i loro nomi, con questo Alfabetiere, GIOCANDO, si può iniziare ad imparare il SUONO e la FORMA delle lettere maiuscole dell'ALFABETO! Abbiamo fatto delle prove con risultati strabilianti! Con questo metodo la FORMA dell'ANIMALE facilita l'apprendimento della FORMA della LETTERA dando un aiuto VISIVO molto importante per la memoria! La mente può così ASSOCIARE la forma della LETTERA (concetto al bambino ancora astratto) alla forma dell'ANIMALE (oggetto concreto) oltre al relativo SUONO fonetico (E come Elefante!). Alla fine del libro, sono raccolte diverse immagini in bianco e nero che i bambini potranno divertirsi a colorare! Volevamo raccontare ai bambini che per fare questo Alfabetiere abbiamo dovuto radunare animali provenienti da tutte le parti del Mondo! Qualcuno con nomi fantasmagorici! E fare delle vere e proprie selezioni, come per un

film! Sfogliando le pagine vi accorgete che non tutti gli animali sono stati accettati! Vedrete anche degli animali che hanno provato a MIMARE le lettere dell'alfabeto ma non ci sono riusciti! Provate anche voi a imitare qualche lettera assieme ai vostri amici animali! E non dimenticate di provare a colorarli!

National linguistic ideology has been at the base of most historical processes that –whether they are complete or not – have brought us to the current reality: a world of languages that represent, with greater or lesser exactitude, the diversity – and convergences – of human groups. Various of today's thinkers have predicted the decline or even the end of national ideologies. In the area of language, postmodernism would make the linguistic affiliation of the community individuals irrelevant, de-ideologise language use, and extend plurilingualism and language alternation in association with a new distribution of (physical or functional) spaces of linguistic practice. But is this true everywhere? Are languages now nowhere the core of collective identity? Or are we witnessing a distinction between languages that, because of their magnitude, status, strategic position, etc., can continue to exercise the function of national languages and languages that have to renounce this function? Has national linguistic ideology really ceased to make sense? What other strategies should the historic language of a given geographic area employ if it wants to continue forming part of the life of the community that is set up there? What kinds of languages are desired by politicians, intellectuals and philologists? This book aims to bring some thoughts about these questions.
