Lost Islamic History Weidenfeld & Nicolson

In this latest installment of his remarkable series of books of alternative science and history, Joseph P. Farrell outlines the consistent pattern and strategy of bankers in ancient and modern times, and their desire to suppress the public development of alternative physics and energy technologies, usurp the money creating and issuing power of the state, and substitute a facsimile of money-as-debt. Here, Farrell peels back the layers of deception to reveal the possible deep physics that the "banksters" have used to aid them in their financial policies. Feral House also published Farrell's *Philosopher's Stone: Alchemy and the Secret Research for Exotic Matter*.

Black Morocco: A History of Slavery, Race, and Islam chronicles the experiences, identity and achievements of enslaved black people in Morocco from the sixteenth century to the beginning of the twentieth century. Chouki El Hamel argues that we cannot rely solely on Islamic ideology as the key to explain social relations and particularly the history of black slavery in the Muslim world, for this viewpoint yields an inaccurate historical record of the people, institutions and social practices of slavery in Northwest Africa. El Hamel focuses on black Moroccans' collective experience beginning with their enslavement to serve as the loyal army of the Sultan Isma'il. By the time the Sultan died in 1727, they had become a political force, making and unmaking rulers well into the nineteenth century. The emphasis on the political history of the black army is augmented by a close examination of the continuity of black Moroccan identity through the musical and cultural practices of the Gnawa.

In his #1 New York Times bestseller *Agents of the Apocalypse*, noted prophecy expert Dr. David Jeremiah explored the book of Revelation through the lens of its major players. Now, in the much-anticipated follow-up, *Agents of Babylon*, Dr. Jeremiah examines prophecy through the eyes of the characters in the book of Daniel, explains what the prophecies mean, and helps us understand how

these prophetic visions and dreams apply to our lives today. Written in the same highly engaging half dramatization, half Bible teaching format as *Agents of the Apocalypse*, *Agents of Babylon* is not only an in-depth exploration of the characters and prophecies contained in the book of Daniel but also a dramatic retelling of Scripture that is sure to bring ancient prophecy to light like never before.

"Hebrew Igbo Republics" sets out to demonstrate that the Igbos of West Africa, the group known and described as the Jews of Africa, and Biafrans by many, practice a culture and a religion that bring to life the culture and religion of the Israelites of the Bible. The author resurrects biblical characters by showing that they used idioms which correspond to idioms used by Igbos since immemorial times. Awesomely the Igbo expression for marriage "ima ogodo" was what Ruth told Boaz to do when she asked him to marry her through a Levirate arrangement. And we find in the book rock-solid evidence that the Igbos retain what could be the nearest name for Israel's biblical religion and culture. A translation of the Igbo phrase O me na ana leads us to Deuteronomy 6:1. You will be spell-bound when you see that the elusive name of the Hebrew God has a connection to "Chi" which is the Igbo word for God or personal God. And in this book the author shows that many Igbo and Hebrew words which are close in spelling mean the same things. Igbo urimmu and Hebrew urim both mean light. Igbo aru and Hebrew ar mean abomination, forbidden. DNA? The book gives us evidence sourced from MyHeritage DNA company that Igbo genes are in the Middle East gene pool. The reader should read and see for himself or herself what this monograph carries. The book says to all scholars in biblical, Jewish, Igbo, Middle Eastern, African, Christian and Religious studies, we have work to do! We need to go back to the drawing boards!

Throughout his career, Eduardo Galeano has turned our understanding of history and reality on its head. Isabelle Allende said his works “invade the reader's mind, to persuade him or her to surrender to the charm of his writing and power of his idealism.” Mirrors, Galeano's most ambitious project since Memory of Fire, is an unofficial history of the world seen through history's unseen, unheard, and forgotten. As Galeano notes: “Official history has it that Vasco Núñez de Balboa was the first man to see, from a summit in Panama, the two oceans at once. Were the people who lived there blind??” Recalling the lives of artists, writers, gods, and visionaries, from the Garden of Eden to twenty-first-century New York, of the black slaves who built the White House and the women erased by men's fears, and told in hundreds of kaleidoscopic vignettes, Mirrors is a magic mosaic of our humanity.

Are the tribes of Israel really "lost" or were they hidden as prophesied in Psalms 83? The Bible seems to indicate a multi national conspiracy to hide Israel and wipe out the memory of who they really are. If this is true, then history as we know it has been hijacked, and it is only through searching that we will find the truth. In this book, you'll find the answers to the following questions, just to name a few: Why does a 1747 English map place the tribe of Judah on the "slave coast" of Africa? Why do slave ledgers show slaves being registered with Hebrew names fresh off of the ships? Why did slaves sing songs in Hebrew and call out to Yah for help? Why did Christ mention the slavery of Israel as a sign of the end of the age? Are "the times of the Gentiles" coming to an end? If you are 100% honest with yourself as you find the answers to these questions, your eyes will be opened. If you're ready to start this eye opening adventure through scripture then keep reading. ISRAEL IS STILL A NATION TO GOD AND ALWAYS WILL BE! “Thus saith the LORD, which giveth the sun for a light by day, and the ordinances of the moon and of the stars for a light by night, which divideth the sea when the waves thereof roar; The LORD of hosts is his name: If those ordinances depart from before me, saith the LORD, then the seed of Israel also shall cease from being a nation before me for ever. Thus saith the LORD; If heaven above can be measured, and the foundations of the earth searched out beneath, I will also cast off all the seed of Israel for all that they have done, saith the LORD.” - Jeremiah 31:35-37

Ancient Egyptian Book of the Dead Creative Publishing International

This collection of six original essays explores the peculiar ethnic composition and history of New Orleans, which the authors persuasively argue is unique among American cities. The focus of Creole New Orleans is on the development of a colonial Franco-African culture in the city, the ways that culture was influenced by the arrival of later immigrants, and the processes that led to the eventual

dominance of the Anglo-American community. Essays in the book's first section focus not only on the formation of the curiously blended Franco-African culture but also on how that culture, once established, resisted change and allowed New Orleans to develop along French and African creole lines until the early nineteenth century. Jerah Johnson explores the motives and objectives of Louisiana's French founders, giving that issue the most searching analysis it has yet received. Gwendolyn Midlo Hall, in her account of the origins of New Orleans' free black population, offers a new approach to the early history of Africans in colonial Louisiana. The second part of the book focuses on the challenge of incorporating New Orleans into the United States. As Paul F. LaChance points out, the French immigrants who arrived after the Louisiana Purchase slowed the Americanization process by preserving the city's creole culture. Joseph Tregle then presents a clear, concise account of the clash that occurred between white creoles and the many white Americans who during the 1800s migrated to the city. His analysis demonstrates how race finally brought an accommodation between the white creole and American leaders. The third section centers on the evolution of the city's race relations during the nineteenth and twentieth centuries. Joseph Logsdon and Caryn Cossé Bell begin by tracing the ethno-cultural fault line that divided black Americans and creole through Reconstruction and the emergence of Jim Crow. Arnold R. Hirsch pursues the themes discerned by Logsdon and Bell from the turn of the century to the 1980s, examining the transformation of the city's racial politics. Collectively, these essays fill a major void in Louisiana history while making a significant contribution to the history of urbanization, ethnicity, and race relations. The book will serve as a cornerstone for future study of the history of New Orleans.

The World Book Encyclopedia Wellfleet Press

The best-selling comprehensive history of the world, from the perspective of struggling peoples throughout the ages—now with new material and a foreword by Howard Zinn From the earliest human societies to the Holy Roman Empire, from the Middle Ages to the Enlightenment, from the Industrial Revolution to the end of the twentieth century, Chris Harman provides a brilliant and comprehensive history of the human race. Eschewing the standard accounts of “Great Men,” of dates and kings, Harman offers a groundbreaking counter-history, a breathtaking sweep across the centuries in the tradition of “history from below.” In a fiery narrative, he shows how ordinary men and women were involved in creating and changing society and how conflict between classes was often at the core of these developments. While many scholars see the victory of capitalism as now safely secured, Harman explains the rise and fall of societies and civilizations throughout the ages and demonstrates that history moves ever onward in every age. This magisterial study is essential reading for anyone interested in how society has changed and developed and the possibilities for further radical progress. “I have had many people ask me if there is a book which does for world history what my book A People's History of the United States does for this country. I always responded that I know of only one book that accomplishes this extremely difficult task, and that is Chris Harman's A People's History of the World.” —Howard Zinn

The African Diaspora in Britain is examined as part of a global black community with shared experiences of slavery, colonization and neo-colonialism. The author traces the evolution of colourism within African descendant communities in the USA, Jamaica, Latin America and the UK from a historical and political perspective and examines its present impact on the global African Diaspora.
