### The Caregiver's

#### Toolbox Lulu.com

Millions of Americans are or will be amateur caregivers for ill spouses, parents, or friends. Caregivers today, more than ever, use technology to help manage schedules, medication routines and pharmacy reminders, legal and financial affairs, as well as travel and expenses. Yet recent insurance options and health care's emerging digital world make for an overwhelming, complex process. If you are one of the 64 million current

caregivers, could you access your parents' critical documents in an emergency, using their user IDs and passwords? Do you know how often your parents or parents-in-law are taking medications, how often your loved one goes to the doctor, and how to be involved in medical and life decisions? Statistics show 85 percent of caregivers are not trained in caregiving, so many people are likely winging it, picking up pieces of information here and advice there. The Caregiver's Toolbox is your guide to cool apps and online tools, insider tips on how to reduce your medical bills, your privacy rights as a

caregiver, where to go for free and low-cost help, and much more. It clearly shows which tools will relieve your stress, and those that may add stress. The authors dedicate much of their professional lives to helping people navigate the health care matrix. For updates on tools, applications, and emerging technology, visit the authors' website, [www.caregivers-toolbox.com](http://www.caregivers-toolbox.com).

A notary is a public official responsible for independently verifying signatures and oaths. Depending on how a document is written, a notarization serves to affirm the identity of a signer and the fact that they personally executed their signature. A notarization, or notarial act, officially documents

the identity of a party to a document or transaction and the occasion of the signing that others can rely upon, usually at face value. A notary's authentication is intended to be reliable, to avoid the inconvenience of having to locate a signer to have them personally verify their signature, as well as to document the execution of a document perhaps long after the lifetime of the signer and the notary. An oath is a sworn statement. In most cases a person will swear that a written statement, oral statement, or testimony they are about to give is true. A notary can document that the notary administered an oath to an individual.

French Connections examines how the movement of people, ideas, and social practices contributed to the complex processes and negotiations involved in being and becoming French in North America and the Atlantic World between the years 1600 and 1875. Engaging a wide range of topics, from religious and diplomatic performance to labor migration, racialization,

and both imagined and real conceptualizations of "Frenchness" and "Frenchification," this volume argues that cultural mobility was fundamental to the development of French colonial societies and the collective identities they housed. Cases of cultural formation and dislocation in places as diverse as Quebec, the Illinois Country, Detroit, Haiti, Acadia, New England, and France itself demonstrate the broad variability of French cultural mobility that took place throughout this massive geographical space. Nevertheless, these communities shared the same cultural root in the midst of socially and politically fluid landscapes, where cultural mobility came to define, and indeed sustain, communal and individual identities in French North America and the Atlantic World. Drawing on innovative new scholarship on Louisiana and New Orleans, the editors and contributors to French Connections look to refocus the conversation surrounding French colonial interconnectivity by thinking about mobility as a constitutive condition of culture; from this

perspective, separate “spheres” of French colonial culture merge to reveal a broader, more cohesive cultural world. The comprehensive scope of this collection will attract scholars of French North America, early American history, Atlantic World history, Caribbean studies, Canadian studies, and frontier studies. With essays from established, award-winning scholars such as Brett Rushforth, Leslie Choquette, Jay Gitlin, and Christopher Hodson as well as from new, progressive thinkers such as Mairi Cowan, William Brown, Karen L. Marrero, and Robert D. Taber, *French Connections* promises to generate interest and value across an extensive and diverse range of concentrations.

From a neo-liberal, neo-classical paradigm, secure, formal and private property rights are crucial to fostering sustained development. Institutions that fail to respond to shifting socio-economic opportunities are thus

forced to make new arrangements. The enigma is posed by developments on the ground. Why would the removal of authoritarian institutions during the Arab Spring or Iraq War not increase market efficiency but rather cause the reverse, while China and India, despite persisting insecure, informal and common institutions, featured sustained growth? This collection posits that understanding these paradoxes requires a refocusing from form to function, detached from normative assumptions about institutional appearance. In so doing, three things are accomplished. First, starting from case studies on land, it is ascertained that the argument can be meaningfully extended to labour, capital and beyond. Second, the argument validates the ‘Credibility Thesis’ – that is, once institutions persist, they fulfil a function. Third, the collection studies ‘development, broadly construed’, by including the modes of production and beyond, the rural and urban, the developed and developing. This is why it reviews property rights from China and India, to

Turkey, Mexico and Malaysia, covering issues such as customary rights and privatization, mining and pastoralism, dam-building and irrigation, but also state-owned banks, trade unions and notaries. This book was originally published as a special issue of *The Journal of Peasant Studies*.

A prospective notary need only submit a complete application, proof of a \$10,000 surety bond, and appropriate fees to the Department of Licensing in order to begin the process. Once an applicant has completed all application requirements and proven that he or she is eligible, the Department will have a new certificate of commission mailed out promptly. New in 2018, notaries public can also apply for an electronic records notary public endorsement, which allows the notary to perform notarial acts on electronic documents as well as paper documents. The application process is similar to the application process for the commission, and can be done at the same time or separately.

#### New York Landlord's Law Book

The Fragility of Law examines the ways in which, during the Second World War, the Belgian government and judicial structure became

implicated in the identification, exclusion and killing of its Jewish residents, and in the theft - through Aryanization - of Jewish property. David Fraser demonstrates how a series of political and legal compromises meant that the infrastructure for antisemitic persecutions and ultimately the deaths of thousands of Belgian Jews was Belgian. Based on extensive archival research in Belgium, France, the United States and Israel, The Fragility of Law offers the first detailed exploration in English of this intriguing and virtually unexplored episode of Holocaust history. Belgian legal officials did not hesitate to invoke the provisions of international law found in the Hague Convention and those guarantees of individual freedom found in the national Constitution to oppose the demands of the German Occupying Authority. However, they remained largely silent when anti-Jewish persecution was at stake. Indeed, despite the 2007 official report of expert historians on Belgian state collaboration in the persecution of the country's Jewish population, the mythology of "passive collaboration"

which has dominated Belgian historiography and accounts of the Holocaust in that country, must be radically rethought.
