14 YEAR-WISE CTET Paper 2 (Social Science/ Studies) Solved Papers (2011 - 2020) - 3rd English Edition Disha Publications

This engaging text presents the latest scientific findings on gender differences, similarities, and variations--in sexuality, cognitive abilities, occupational preferences, personality, and social behaviors. The impact of nature and nurture on gender is examined from the perspectives of genetics, molecular biology, evolutionary theory, neuroanatomy, sociology, and psychology. The result is a balanced, fair-minded synthesis of diverse points of view. Dr. Lippa's text sympathetically summarizes each side of the nature-nurture debate, and in a witty imagined conversation between a personified "nature" and "nurture," he identifies weaknesses in the arguments offered by both sides. His review defines gender, summarizes research on gender differences, examines the nature of masculinity and femininity, describes theories of gender, and presents a "cascade model," which argues that nature and nurture weave together to form the complex tapestry known as gender. *Gender, Nature, and Nurture, Second Edition* features: *new research on sex differences in personality, moral thought, coping styles, sexual and antisocial behavior, and

psychological adjustment; *the results of a new meta-analysis of sex differences in real-life measures of aggression; *new sections on non-hormonal direct genetic effects on sexual differentiation; hormones and maternal behavior; and on gender, work, and pay; and *expanded accounts of sex differences in children's play and activity levels; social learning theories of gender, and social constructionist views of gender. This lively "primer" is an ideal book for courses on gender studies, the psychology of women, or of men, and gender roles. Its wealth of updated information will stimulate the professional reader, and its accessible style will captivate the student and general reader.

Remembering the Year of the French is a model of historical achievement, moving deftly between the study of historical events—the failed French invasion of the West of Ireland in 1798—and folkloric representations of those events. Delving into the folk history found in Ireland's rich oral traditions, Guy Beiner reveals alternate visions of the Irish past and brings into focus the vernacular histories, folk commemorative practices, and negotiations of memory that have gone largely unnoticed by historians. Beiner analyzes hundreds of hitherto unstudied historical, literary, and ethnographic sources. Though his focus is on 1798, his work is also a comprehensive study of Irish folk

history and grass-roots social memory in Ireland. Investigating how communities in the West of Ireland remembered, well into the mid-twentieth century, an episode in the late eighteenth century, this is a "history from below" that gives serious attention to the perspectives of those who have been previously ignored or discounted. Beiner brilliantly captures the stories, ceremonies, and other popular traditions through which local communities narrated, remembered, and commemorated the past. Demonstrating the unique value of folklore as a historical source, *Remembering the Year of the French* offers a fresh perspective on collective memory and modern Irish history. Winner, Wayland Hand Competition for outstanding publication in folklore and history, American Folklore Society Finalist, award for the best book published about or growing out of public history, National Council on Public History Winner, Michaelis-Jena Ratcliff Prize for the best study of folklore or folk life in Great Britain and Ireland "An important and beautifully produced work. Guy Beiner here shows himself to be a historian of unusual talent."—Marianne Elliott, *Times Literary Supplement* "Thoroughly researched and scholarly. . . . Beiner's work is full of empathy and sympathy for the human remains, memorials, and commemorations of past lives and the multiple ways in which they actually continue to live."—Stiofán Ó Cadhla, *Journal of British Studies* "A major contribution to Irish historiography."—Maureen Murphy, *Irish Literary Supplement* "A remarkable piece of scholarship Accessible, full of intriguing detail, and eminently teachable."—Ray Casman, *New Hibernia Review* "The most important monograph on Irish history of the nineteenth and twentieth centuries to be published in recent years."—Matthew Kelly, *English Historical Review* "A strikingly ambitious work Elegantly constructed, lucidly written and inspired, and displaying an inexhaustible capacity for research"—Ciarán Brady, *History IRELAND* "A closely argued, meticulously detailed and rich analysis providing such innovative treatment of a wide array of sources, his work will resonate with the concerns of many cultural and historical geographers working on social memory in quite different geographical settings and historical contexts."—Yvonne Whelan, *Journal of Historical Geography*

As a Jamaican immigrant arriving in the United States at the age of twenty, Jason Hill noticed how often Americans identified themselves in terms of race and ethnicity. He observed, for example, the reluctance of West Indians to join 'black causes' for fear of losing their identity. He began to ask himself what sort of

world he wanted to live in, a quest that in time led him to the idea of the cosmopolitan. In *Becoming a Cosmopolitan*, Jason D. Hill argues that we need a new understanding of the self. He revives the idea of the cosmopolitan, the person who identifies the world as home. Arguing for the right to forget where we came from, Hill proposes a new moral cosmopolitanism for the new millennium.

Any life story, whether a written autobiography or an oral testimony, is shaped not only by the reworkings of experience through memory and re-evaluation, but also art. Any

communication has to use shared conventions not only of language itself but also the more complex expectations of 'genre': of the forms expected within a given context and type of communication. This collection of essays by international academics draws on a wide range of disciplines in the social sciences and the humanities to examine how far the expectations and forms of genre shape different kinds of autobiography and influence what messages they can convey. After investigating the problem of genre definition, and tracing the evolution of genre as a concept, contributors explore such issues as: * How far can we argue that what people narrate in their autobiographical stories is selected and shaped by the repertoire of genre available to them? * To what extent is oral autobiography shaped by its social and cultural context? * What is the relationship between autobiographical sources and the ethnographer? Narrative and Genre presents exciting new debates in an emerging field and will encourage international and interdisciplinary debate. Its authors and contributors are scholars from the fields of anthropology, cultural studies, literary analysis, psychoanalysis, social history, and sociology.
