Feminism and Indian Realities

Partridge Publishing

In the UK the number of people who came from a minority ethnic group grew by 53 per cent between 1991 and 2001, from 3.0 million in 1991 to 4.6 million in 2001.

Whilst much has been written about the impact of these demographic changes in relation to policy issues, black and minority women and children remain under-researched. Recent publications have tended to focus on South Asian women, forced marriage and 'honour' related violence. *Moving in the Shadows* brings together for the first time in a single volume, an examination of violence against women and children within the diverse communities of the UK. Its strength lies in its gendered focus as well as its understanding of the need for an integrated approach to all forms of violence against women, whilst foregrounding the experiences of minority women, the communities they are part of, and the organizations which have advocated for their rights and given them voice. The chapters contained within this volume explore a set of core themes: the forms and contexts of violence minority women experience; the continuum of violence; the role of culture and faith in the control of women and girls; the types of intervention within multi-cultural and social cohesion policies; the impacts of violence on British-born and migrant women and girls; and the intersection of race, class, gender and sexuality highlighting issues of similarity and difference. Taken together, they provide a valuable resource for scholars, students, activists, social workers and policy-makers working in the field.

Encompassing experimental film and video, essay film, gallery-based installation art, and digital art, Jihoon Kim establishes the concept of hybrid moving images as an array of impure images shaped by the encounters and negotiations between different media, while also using it to explore various theoretical issues, such as stillness and movement, indexicality, abstraction, materiality, afterlives of the celluloid cinema, archive, memory, apparatus, and the concept of medium as such. Grounding its study in interdisciplinary framework of film studies, media studies, and contemporary art criticism, *Between Film, Video, and the Digital* offers a fresh insight on the post-media conditions of film and video under the pervasive influences of digital technologies, as well as on the crucial roles of media hybridity in the creative processes of giving birth to the emerging forms of the moving image. Incorporating in-depth readings of recent works by more than thirty artists and filmmakers, including Jim Campbell, Bill Viola, Sam Taylor-Johnson, David Claerbout, Fiona Tan, Takeshi Murata, Jennifer West, Ken Jacobs, Christoph Girardet and Matthias Müller, Hito Steyerl, Lynne Sachs, Harun Farocki, Doug Aitken, Douglas Gordon, Stan Douglas, Candice Breitz, among others, the book is the essential scholarly monograph for understanding how digital technologies simultaneously depend on and differ from previous time-based media, and how this juncture of similarities and differences signals a new regime of the art of the moving image.

production assistant in Manhattan. Still, she's always on the lookout for the perfect topic for her own film—and she thinks she's found it when she witnesses the bombing of a triple-X movie theater in Times Square. Rune's got a great hook for her documentary: She plans to film it through the eyes of Shelly Lowe, the porn star whose movie was playing at the theater when it exploded. But just hours after Rune films a poignant Shelly reflecting on her dreams of becoming a serious actress, a second bomb silences the beautiful film star forever. Was Shelly in the wrong place at the wrong time—or was she the bomber's target all along? Rune vows to find out the truth behind the death of this blue movie star. But as she struggles to finish shooting her film, Rune's labor of love may be her final masterpiece—as a shooting of a more lethal kind threatens to write an ending to this story that no one wants to see. . . .

Veering away from the beaten path Aniruddha has weaved a tale of intrigue and suspense spanning across the country. This is neither a story of the typical detective and the murderer as we would like to believe, nor does it have the mind games of a Sherlock Holmes or a Hercule Poirot. This is a story of normal flesh and blood human beings doing police work as one would come across in everyday life...real and well within the realm of possibilities. The myriad characters that come into play in this drama show frailties of the mind as to leave the reader stupefied. This is a story hard to put down due to its pace as the pieces of the jigsaw puzzle get placed in their correct places with the turn of each page and ends in the final pages...

Video is a part of everyday life, comparable to driving a car or taking a shower. It is nearly omnipresent, available on demand and attached to nearly anything, anywhere. Online Video became something vital and independent. With all the video created by the cameras around us, constantly uploading, sharing, linking, and relating, a blue ocean is covering our planet, an ocean of video. What might look as bluish noise and dust from the far outside, might embed beautiful and fascinating living scapes of moving images, objects constantly changing, re-arranging, assembling, evolving, collapsing, but never disappearing, a real cinema. Andreas Treske describes and theorizes these objects formerly named video, their forms, behaviours and properties.

Introduction to Media Production Univ of California Press

African cultural productions of humour have increased even in the face of myriad economic foibles and social upheavals. For instance, from the 1990s, stand-up comedy emerged across the continent and has maintained a pervasive presence since then. Its specificities are related to contemporary economic and political contexts and are also drawn from its pre-colonial history, that of joking forms and relationships, and orality. Izuu Nwankwo's fascinating collected volume offers a transnational appraisal of this unique art form spanning different nations of the continent and its diasporas. The book engages variously with jokesters, their materials, the mediums of dissemination, and the cultural value(s) and relevance of their stage work, encompassing the form and content of the practice. Its ruling theoretical perspective comes from theatre and performance, cultural studies, linguistics, and literary studies.

In contemporary culture, existing audiovisual recordings are constantly reused and repurposed for various ends, raising questions regarding the ethics of

such appropriations, particularly when the recording depicts actual people and events. Every reuse of a preexisting recording is, on some level, a misuse in that it was not intended or at least anticipated by the original maker, but not all misuses are necessarily unethical. In fact, there are many instances of productive misuse that seem justified. At the same time, there are other instances in which the misuse shades into abuse. Documentary scholars have long engaged with the question of the ethical responsibility of documentary makers in

relation to their subjects. But what happens when this responsibility is set at a remove, when the recording already exists for the taking and repurposing? Reuse, Misuse and Abuse surveys a range of contemporary films and videos that appropriate preexisting footage and attempts to theorize their ethical implications.
