But what are the harms and

how exactly does the speech in question brings those harms about? Mary Kate McGowan identifies a previously overlooked mechanism by which speech constitutes, rather than merely causes, harm. She argues that speech constitutes harm when it enacts a norm that prescribes that harm. McGowan illustrates this theory by considering many categories of speech

including sexist remarks, racist hate speech, pornography, verbal triggers for stereotype threat, micro-aggressions, political dog whistles, slam poetry, and even the hanging of posters. Just Words explores a variety of harms - such as oppression, subordination, discrimination, domination, harassment, and marginalization - and ways in which these harms can be remedied.

Ballantine Books Institutions like schools, hospitals, and universities are not well known for having quality, healthy food. In fact, institutional food often embodies many of the worst traits of our industrialized food system, with long supply chains that are rife with environmental and social problems and growing market concentration in many stages of food production

and distribution. Recently, however, non-profit organizations, government agencies, university research institutes, and activists have partnered with institutions to experiment with a wide range of more ethical and sustainable models for food purchasing, also known as values-based procurement. Institutions as Conscious Food Consumers brings together in-depth case

studies from several of promising models of institutional food purchasing that aim to be more sustainable, healthy, equitable, and local. With chapters written by a diverse set of authors, including leaders in the food movement and policy researchers, this book: Documents growing interest among non-profit organizations and activists in institutional

food interventions through case studies and first-hand experiences; Highlights emerging evidence about how these new procurement models affect agro-food supply chains; and Examines the role of policy and regional or geographic identity in promoting food systems change. Institutions as Conscious Food Consumers makes the case that institutions can use their

budgets to change the food system for the better, although significant challenges remain. It is a must read for food systems practitioners, food chain researchers, and foodservice professionals interested in values-based procurement.

This twenty-fifth anniversary edition of John Shields's classic cookbook

includes additional recipes and a new chapter on Chesapeake libations. Twenty-five years ago, Chesapeake Bay Cooking with John Shields introduced the world to the regional cuisine of the Mid-Atlantic. Nominated for a James Beard Award, the book was praised for its inspiring heritage recipes and its then-revolutionary emphasis on cooking with local and seasonal

ingredients. Part history lesson, part travelogue, the book captured the unique character of the Chesapeake region and its people. In this anniversary edition, John Shields combines popular classic dishes with a host of unpublished recipes from his personal archives. Readers will learn how to prepare over 200 recipes from the Mid-Atlantic region, including panfried

Evil reigns the world. Earth's been ravaged. The only signs humans survived the war come from those who serve the Demons' army. To continue his conquest of humanity, Lucas prepares to open the gates of Hell and bring Satan himself

to the physical realm. With a soul that's been battered and beaten by both Heaven and Hell, I hold on to a single conviction-my love for my family. My only mission now is to save their souls. But the Angels have other plans for us all. My faith in them, in everything is fractured . . . broken. Possibly gone forever. I mean, after everything, after all of the loss, who can blame me? Tristan and everyone else

still believe-in the Angels and in me. I have to dig deep, though, for the tiniest bit of faith in order to defeat Lucas and win back the world. But first, I must answer the question that's haunted me for years: How far will I go to save the souls I love- and those I do not?

"With powerful abilities gained from

the Ang'dora and Tristan back by her side, Alexis thinks she's ready for the next challenge--protecting her son from what appears to be the inevitable. But she has so much to learn about her powers, her new world and the people in it. Nothing is what it seems to be on the surface, including the Amadis. Power-hungry politicians comprise the council and make impossible demands. A traitor lurks

among them all, inciting trouble that could destroy the Amadis and, ultimately, humanity. The Daemoni wreak havoc in the human world, with the ultimatum that they'll continue attacking innocents until Alexis and Tristan are expelled from the Amadis' protection. The couple's own society begins to shut them out. But that's not all. Someone's keeping a secret. A big one. Faith and hope in Alexis

and Tristan will be restored if she can uncover the truth in time. But the search for answers leads only to the discovery of more betrayals by those closest to Alexis. Her devotion is put to the test--devotion to her husband, to her family, to her people and to her beliefs--leaving her to question whom she's fighting for and why she should even bother. But if she won't fight ... who will?"--

Qualitative research is designed to explore the human elements of a given topic, while specific qualitative methods

examine how individuals see and experience the world. Qualitative approaches are typically used to explore new phenomena and to capture individuals' thoughts, feelings, or interpretations of meaning and process. Such methods are central to research conducted in education, nursing, sociology, anthropology, information studies, and other disciplines in the humanities,

social sciences, and health sciences. Qualitative research projects are informed by a wide range of methodologies and theoretical frameworks. The SAGE Encyclopedia of Qualitative Research Methods presents current and complete information as well as ready-to-use techniques, facts, and examples from the field of qualitative research in a very accessible

style. In taking an interdisciplinary approach, these two volumes target a broad audience and fill a gap in the existing reference literature for a general guide to the core concepts that inform qualitative research practices. The entries cover every major facet of qualitative methods, including access to research participants, data coding, research ethics, the role of theory

in qualitative research, and much more—all without overwhelming the informed reader. Key Features Defines and explains core concepts, describes the techniques involved in the implementation of qualitative methods, and presents an overview of qualitative approaches to research Offers many entries that point to substantive debates among qualitative researchers

regarding how concepts are labeled and the implications of such labels for how qualitative research is valued Guides readers through the complex landscape of the language of qualitative inquiry Includes contributors from various countries and disciplines that reflect a diverse spectrum of research approaches from more traditional, positivist approaches, through postmodern, constructionist ones Presents some entries written in first-person voice and others in third-person voice to reflect the diversity of approaches that define qualitative work Key Themes Approaches and Methodologies Arts-Based Research, Ties to Computer Software Data Analysis Data Collection Data Types and Characteristics Dissemination History of Qualitative Research Participants Quantitative Research, Ties to Research Ethics Rigor Textual Analysis, Ties to Theoretical and Philosophical Frameworks The SAGE Encyclopedia of Qualitative Research Methods is designed to appeal to undergraduate and graduate students, practitioners, researchers, consultants, and consumers of information across the social sciences,

Chesapeake Bay Cooking with John Shields FSG Originals
A New York Times Book Review Editors' Choice "A brilliant and

empathetic guide to the far corners of global capitalism." -- Jenny Odell, author of How to Do Nothing From FSGO x Logic: stories about rural China, food, and tech that reveal new truths about the globalized world In Blockchain Chicken Farm, the technologist and writer Xiaowei Wang explores the political and social entanglements of technology in rural China. Their discoveries

force them to challenge the standard idea that rural culture and people are backward, conservative, and intolerant. Instead, they find that rural China has not only adapted to rapid globalization but has actually innovated the technology we all use today. From pork farmers using AI to produce the perfect pig, to disruptive luxury counterfeits and the political intersections of e-

commerce villages, Wang unravels the ties between globalization, technology, agriculture, and commerce in unprecedented fashion. Accompanied by humorous “Sinofuturist” recipes that frame meals as they transform under new technology, Blockchain Chicken Farm is an original and probing look into innovation, connectivity, and collaboration in the digitized rural world. FSG

Originals x Logic dissects the way technology functions in everyday lives. The titans of Silicon Valley, for all their utopian imaginings, never really had our best interests at heart: recent threats to democracy, truth, privacy, and safety, as a result of tech’s reckless pursuit of progress, have shown as much. We present an alternate story, one that delights in capturing technology in

all its contradictions and innovation, across borders and socioeconomic divisions, from history through the future, beyond platitudes and PR hype, and past doom and gloom. Our collaboration features four brief but provocative forays into the tech industry’s many worlds, and aspires to incite fresh conversations about technology focused on nuanced and accessible explorations

of the emerging tools that reorganize and redefine life today.

One Farrar, Straus and Giroux

The world is on the brink of war, the enemy have increased their attacks on humans, and my team and I have been assigned

the mission of building the Angels' army on Earth.

However, the unthinkable happens, and my biggest fear comes true. Nothing will stop me from recovering what is mine.

Except everything and everyone tries. Suspicious humans have set traps to ensnare the supernatural.

The world powers have closed their borders as they prepare for war. The Demons' army grows exponentially by taking

innocent souls-souls that we're supposed to protect. And a power-hungry sorceress schemes to rule us all, with revenge on my grandmother topping her priority list.

I'm forced to choose between those I love dearly and the souls of all of humanity, but when there's no right answer, I'm destined to lose. The question is- who will it be?

Institutions as Conscious Food Consumers

Modern Language Association Intergroup dialogue is a form of democratic engagement that fosters communication, critical reflection, and collaborative action across social and cultural divides. Engaging social identities is central to this approach. In recent years, intergroup dialogue has emerged as a promising social justice education practice that addresses pressing issues in higher education, school and community settings. This edited volume provides a thoughtful and comprehensive overview of intergroup dialogue spanning conceptual frameworks for practice, and most notably a diverse set of research studies which examine in detail the processes and learning that take place through dialogue. This book addresses questions from the fields of education, social psychology, sociology, and social work, offering specific recommendations and examples related to curriculum and pedagogy. Furthermore, it contributes to an understanding of how to constructively engage students and others in education about difference, identities, and social justice.
