The International Space Station Penguin

NATIONAL BOOK CRITICS CIRCLE AWARD WINNER • NEW YORK TIMES BESTSELLER • In this beautifully written masterwork, the Pulitzer Prize-winnner and bestselling author of *Caste* chronicles one of the great untold stories of American history: the decades-long migration of black citizens who fled the South for northern and western cities, in search of a better life. From 1915 to 1970, this exodus of almost six million people changed the face of America. Wilkerson compares this epic migration to the migrations of other peoples in history. She interviewed more than a thousand people, and gained access to new data and official records, to write this definitive and vividly dramatic account of how these American journeys unfolded, altering our cities, our country, and ourselves. With stunning historical detail, Wilkerson tells this story through the lives of three unique individuals: Ida Mae Gladney, who in 1937 left sharecropping and prejudice in Mississippi for Chicago, where she achieved quiet blue-collar success and, in old age, voted for Barack Obama when he ran for an Illinois Senate seat; sharp and quick-tempered George Starling, who in 1945 fled Florida for Harlem, where he endangered his job fighting for civil rights, saw his family fall, and finally found peace in God; and Robert Foster, who left Louisiana in 1953 to pursue a medical career, the personal physician to Ray Charles as part of a glitteringly successful medical career, which allowed him to purchase a grand home where he often threw exuberant parties. Wilkerson brilliantly captures their first treacherous and exhausting cross-country trips by car and train and their new lives in colonies that grew into ghettos, as well as how they changed these cities with southern food, faith, and culture and improved them with discipline, drive, and hard work. Both a riveting microcosm and a major assessment, *The Warmth of Other Suns* is a bold, remarkable, and riveting work, a superb account of an “unrecognized immigration” within our own land. Through the breadth of its narrative, the beauty of the writing, the depth of its research, and the fullness of the people and lives portrayed herein, this book is destined to become a classic.

Pilar Vález's *The Sun Express 27 Stations* to redemption is an exceptional literary chronicle gift. It is the literature of personalized violence, which exemplifies Jorge Luis Borges' postulate that states that all good literature is ultimately biographical. It is a definite example of the Colombian narrative of giving literary testimony to experiences in complex family life, and the subsistence of displacement in the context of 'sicarios.' These are striking texts that combine tales of daily life and traumatic events, descriptions of customs, and philosophical-experiential reflections in the process of psychological and existential catharsis. The connotations in this novel are realistic and symbolic, but they vividly show the theory of Tomás Eloy Martínez that reality is sometimes more fictional than fiction itself. *The Sun Express 27 Stations* to redemption is a poignant, touching gift in the first person that inspires personal growth and the improvement of the society in which we travel. A miraculous lesson in courage and recovery, *Bending Toward the Sun* tells the story of a unique family bond forged in the wake of brutal terror. Weaving together the voices of three generations of women, Leslie Gilbert-Lurie and her mother, Rita Lurie, provide powerful—and inspiring—evidence of the resilience of the human spirit, relevant to every culture in every corner of the world. By turns unimaginably devastating and incredibly uplifting, this firsthand account of survival and psychological healing offers a strong, poignant message of hope in our own uncertain times. Rita Lurie was five years old when she was forced to flee her home in Poland to hide from

the Nazis. From the summer of 1942 to mid-1944, she and fourteen members of her family shared a nearly silent existence in a cramped, dark attic, subsisting on scraps of raw food. Young Rita watched helplessly as first her younger brother then her mother died before her eyes. Motherless and stateless, Rita and her surviving family spent the next five years wandering throughout Europe, waiting for a country to accept them. The tragedy of the Holocaust was only the beginning of Rita's story. Decades later, Rita, now a mother herself, is the matriarch of a close-knit family in California. Yet in addition to love, Rita unknowingly passes to her children feelings of fear, apprehension, and guilt. Her daughter Leslie, an accomplished lawyer, media executive, and philanthropist, began probing the traumatic events of her mother's childhood to discover how Rita's pain has affected not only Leslie's life and outlook but also her own daughter, Mikaela's. A decade-long collaboration between mother and daughter, *Bending Toward the Sun* reveals how deeply the Holocaust remains in the hearts and minds of survivors, influencing even the lives of their descendants. It also sheds light on the generational reach of any trauma, beyond the initial victim. Drawing on interviews with the other survivors and with the Polish family who hid five-year-old Rita, this book brings together the stories of three generations of women—mother, daughter, and granddaughter—to understand the legacy that unites, inspires, and haunts them all.

In *Stations of the Sun* and *The Triumph of the Moon* Ronald Hutton established himself as a leading authority on the historian of Paganism. His wealth of unusual knowledge, complemented by a deep and sympathetic understanding of past and present beliefs that are often dismissed as strange or marginal, and an ability to write lucidly and wittily, gives his work a unique flavour. The essays which make up *Witches, Druids and King Arthur* cover elegantly and entertainingly a wide range of beliefs, myths and practices.

The Flag, the Cross, and the Station Wagon Harper Collins

From the Booker Prize-winning author of *The Remains of the Day* and *When We Were Orphans*, comes an unforgettable edge-of-your-seat mystery that is at once heartbreakingly tender and morally courageous about what it means to be human. Hailsham seems like a pleasant English boarding school, far from the influences of the city. Its students are well tended and supported, trained in art and literature, and become just the sort of people the world wants them to be. But, curiously, they are taught nothing of the outside world and are allowed little contact with it. Within the grounds of Hailsham, Kathy grows from schoolgirl to young woman, but it's only when she and her friends Ruth and Tommy leave the safe grounds of the school (as they always knew they would) that they realize the full truth of what Hailsham is. *Never Let Me Go* breaks through the boundaries of the literary novel. It is a gripping mystery, a beautiful love story, and also a scathing critique of human arrogance and a moral examination of how we treat the vulnerable and different in our society. In exploring the themes of memory and the impact of the past, Ishiguro takes on the idea of a possible future to create his most moving and powerful book to date.

Examines Zoroastrian exegesis by investigating a late antique translation of an ancient Iranian text Challenges the view that considers the study of the Zand an auxiliary science to Avestan studies Views the Zand of the YH as a text in its own right and investigates it within the wider Pahlavi literature Considers the so-called glosses in the Zand for the first time as an integral part of the text Offers a variorum edition of the Middle Persian text, refusing to establish an Urtext In late antiquity, Zoroastrian exegetes set out to translate their ancient canonical texts into Middle Persian, the vernacular of their time. Although undated, these translations, commonly known as the Zand, are often associated with the Sasanian era (224-651 ce). Despite the many challenges the Zand offers to us today, it is indispensable for investigations of late antique exegesis of the Avesta, a collection of religious and ritual texts commonly regarded as the Zoroastrians' scripture. Arash Zeini also offers a fresh edition of the Middle Persian version of the Avestan Yasna Hapta A hA iti, a ritual text composed in the Old Iranian language of Avestan, commonly dated to the middle of the second millennium bce. Zeini challenges the view that considers the Zand's study an auxiliary science to Avestan studies, framing the text instead within the exegetical context from which it emerged.

"The first architect-designed gas station - a Pittsburgh Gulf station in 1913 - was also the first to offer free road maps; the familiar Shell name and logo date from 1907, when a British mother-of-pearl importer expanded its line to include the newly discovered oil of the Dutch East Indies; the first enclosed gas stations were built only after the first enclosed cars made motoring a year-round activity - and operating a service station was no longer a "seasonal" job; the system of "octane" rating was introduced by Sun Oil as a marketing gimmick (74 for premium in 1931)." "As the number of "true" gas stations continues its steady decline - from 239,000 in 1969 to fewer than 100,000 today - the words and images of this book bear witness to an economic and cultural phenomenon that was perhaps more uniquely American than any other of this century." --Jacket.

A poignant look at the disillusionment and angst of the post-World War I generation, the novel introduces two of Hemingway's most unforgettable characters: Jake Barnes and Lady Brett Ashley. Based on Hemingway's experiences, it is the story of a group of American and English expatriates living in Paris who take an excursion to Pamplona, Spain. This powerful work of modern fiction, filled with memorable characters and universal themes, is summarized in this volume, which is enhanced by thought-provoking critical extracts and focused biographical details. The novel helped to establish Hemingway as one of the greatest writers of the twentieth century.
